

Design, configuration and price of Vsmart Live smartphone of Vingroup

Vsmart Live is one of the new series of Vsmart smartphones that will be officially launched by Vingroup in the near future.

Vsmart Live, the successor version of Vsmart's Active 1+ line - the Vietnamese brand smartphone has officially launched. The product is upgraded both in design, configuration and camera hardware compared to its predecessor.

Vsmart Live has two versions: 4GB of RAM with a price of VND 6,990,000 and 6GB of RAM with a price of VND 7,990,000. Products will be officially sold to the market from August 11.

The highlight of Vsmart Live is that the operating system VOS2.0 has been improved towards the most convenient for users. The entire dark interface has been redesigned, optimizing user usage, backing up, restoring and synchronizing user data.

VOS2.0 of Vsmart is supplemented with features using two accounts on the same application and simple mode for the elderly.

Vsmart Live is equipped with 3 cameras with a terrible resolution including 1 48MP camera, 1 8MP camera and 1 5MP camera, which provides the ability to capture wide-angle and take photos of fonts for the device. The front camera of the machine has a 20MP resolution, which is integrated with AI to provide the best image quality.

Vsmart Live is also equipped with fingerprint sensor under the screen. This is the first product of Vsmart to integrate this advanced technology.

The strength of Vsmart Live is thanks to the 675 Snapdragon chip, 4 or 6GB RAM, 64GB internal memory, 4000 mAh battery charging via USB-C port, 6.2 inch FullHD + screen.

Vsmart Live achieved 2395 single-core points and 6657 multi-core points on tests with the GeekBench benchmark tool.

vsmart Live

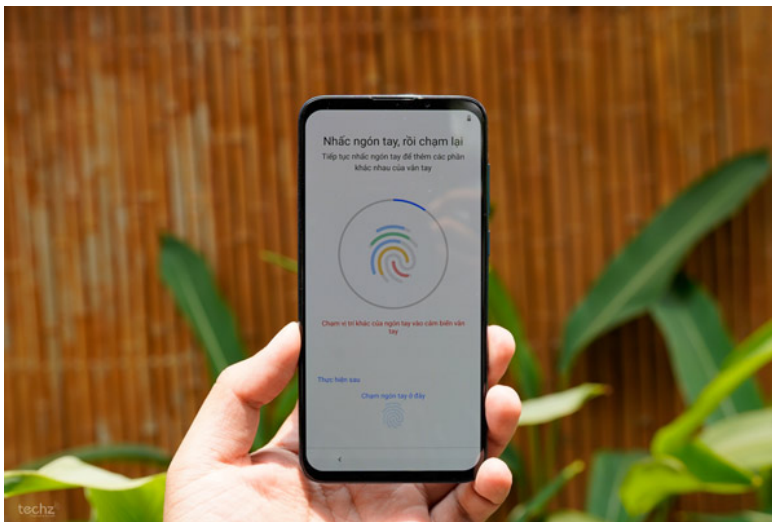

Single-Core Score	Multi-Core Score
2395	6657
Geekbench 4.4.0 for Android AArch64
