

Design, configuration and price of Xiaomi Redmi Note 8 and Note 8 Pro

Xiaomi's Redmi brand has just launched the duo Redmi Note 8 and Note 8 Pro, successors of the Redmi Note 7.

Xiaomi's Redmi brand has just launched the duo Redmi Note 8 and Note 8 Pro, successors of Redmi Note 7. In particular, Redmi Note 8 Pro is one of the first smartphones in the world to have a camera. 64MP.

1. Design, configuration and price of Vingroup Vsmart Star smartphone
2. Meizu 16s Pro launch: Snapdragon 855+, 3 main cameras, priced from 8.7 million

Redmi Note 8

The power of this smartphone comes from Snapdragon 665 processor, with 8 Kryo 260 cores (4 2.2Ghz cores and 1.8Ghz cores). It owns a 6.3-inch LCD waterdrop screen with FullHD + resolution.

The Redmi Note 8 has four rear camera clusters: the main sensor is Samsung's latest 48MP ISOCELL GM2, an 8MP wide-angle camera, a 2MP dedicated macro camera and a 2MP depth sensor. It has a 13MP selfie camera.

It is equipped with a 4,000 mAh battery, supports 18W charging, has a USB-C port, 3.5mm headphone jack. The fingerprint sensor is located on the back of the device.

Redmi Note 8 has 3 color versions for users to choose from: black, white and blue.

The Redmi Note 8 version of 4GB / 64GB costs 999 yuan (about US \$ 140), the 6GB / 64GB version costs 1,199 yuan (about US \$ 168) and the 6GB / 128GB version costs 1,399 yuan (about US \$ 196). .

Redmi Note 8 Pro

The Redmi Note 8 Pro version, equipped with Samsung's ISOCELL Bright GW1 sensor, is one of the first smartphones in the world to have a 64MP camera (just behind Realme XT), which is the focus of attention during the event. this eye.

The Redmi Note 8 Pro is equipped with a 6.53-inch LCD screen with FullHD + resolution, Mediatek's Helio G90T processor, 6 / 8GB RAM, 64 / 128GB internal memory, and a 4,500 mAh battery that supports 18W charging.

Unlike the Redmi Note 8 with a vertical camera cluster in the upper left corner, the rear camera cluster of the Redmi Note 8 Pro is in the middle including: a 64MP main sensor, an 8MP wide-angle camera, a dedicated 2MP macro camera and a dimensional sensor 2MP deep.

The selfie camera of the device has a resolution of 20MP, integrated AI to help take better photos.

Redmi Note 8 Pro is equipped with a liquid cooling system, which helps cool the gaming processor. This is the first smartphone of this company equipped with this technology.

Redmi Note 8 Pro will go on sale in September and come in three color versions: black, white and blue.

Price of Redmi Note 8 Pro:

1. 6GB + 64GB version: 1399 Yuan (about 4.5 million)
2. 6GB + 128GB version: 1599 Yuan (about 5.1 million)
3. 8GB + 128GB version: 1799 Yuan (about 5.8 million)
