

Detailed photo of Samsung Galaxy S21 5G

Samsung Galaxy S21 5G has just been released, The device has quite a few upgrades compared to the Galaxy S20, we can see the first images of Samsung Galaxy S21

Samsung Galaxy S21 5G owns a design with an aluminum frame, the back is made of plastic material. Machine size is 151.7x71.2x7.9 mm respectively, weighing 169 g.

Powering the Samsung Galaxy S21 5G is the Exynos 2100 (5 nm) processor with 8 cores for 2.9 GHz high clock speed, Mali-G78 MP14 GPU. RAM 8 GB with 128 GB internal memory, no microSD card slot. Android 11 operating system, customizable on One UI 3.1.

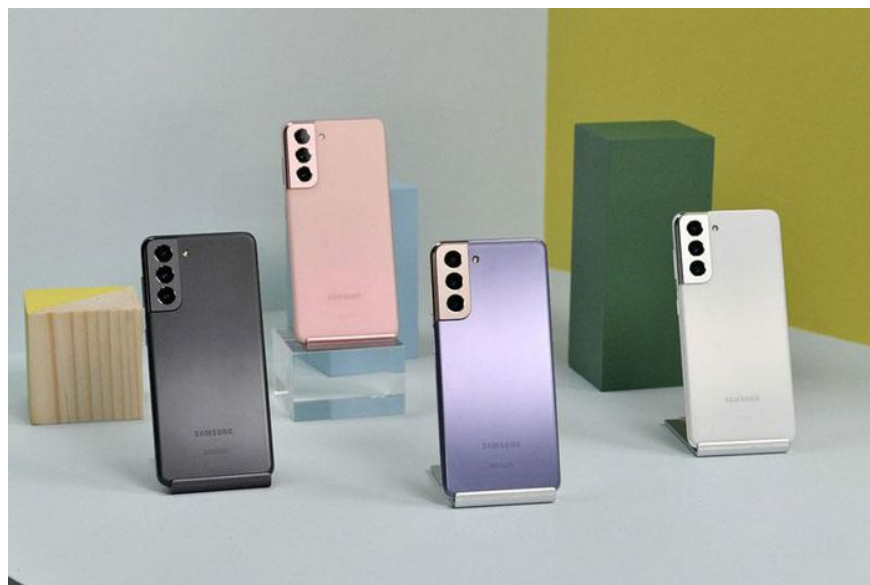

Samsung Galaxy S21 5G only has 128 GB internal memory version for 21.99 million dong. This high-end smartphone will be available on January 29 with Phantom White, Phantom Gray, Phantom Pink and Phantom Violet colors.

The screen panel on the Samsung Galaxy S21 5G is still 6.2-inch Dynamic AMOLED 2X, but the resolution is reduced to Full HD Plus (2,400x1,080 pixels) for a pixel density of 421 ppi instead of 2K Plus as on Galaxy S20. This screen is protected by Corning Gorilla Glass Victus, integrated HDR10 + technology, a maximum brightness of 1,300 nits, divided in 20: 9 ratio.

At the same time, users can adjust the scanning frequency from 48Hz to 120Hz to suit the needs as well as each type of work and application on the Galaxy S21 5G.

Galaxy S21 5G is dust resistant and water resistant according to IP68 standards. Thanks to that, it can soak in water at a depth of 1.5 m for 30 minutes.

4,000 mAh battery capacity, built-in wired fast charger with 25W output, 15W Qi standard wireless fast charge, 4.5W wireless reverse charging.

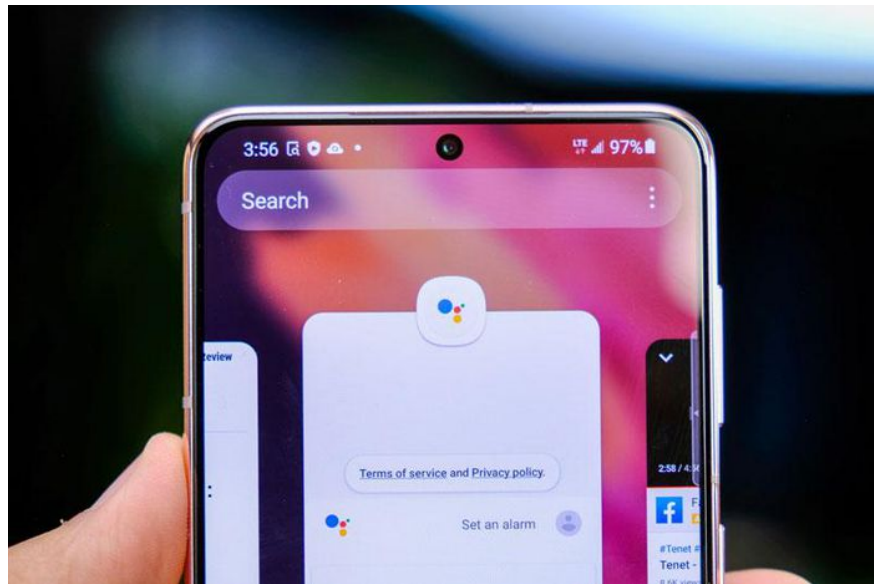

Samsung Galaxy S21 5G has 3 rear cameras. In which, the main sensor has 12 MP, f / 1.8 resolution with Dual Pixel PDAF focusing technology, optical image stabilization (OIS). 64 MP telephoto lens, f / 2.0 helps 3x optical zoom, 30x digital zoom, OIS. Third is a 12 MP, f / 2.2 sensor for a wide 120 degree angle.

This trio is capable of recording 8K video at 24 frames per second, 4K at 60 fps or 720p at 960 fps, and HDR10 + video.

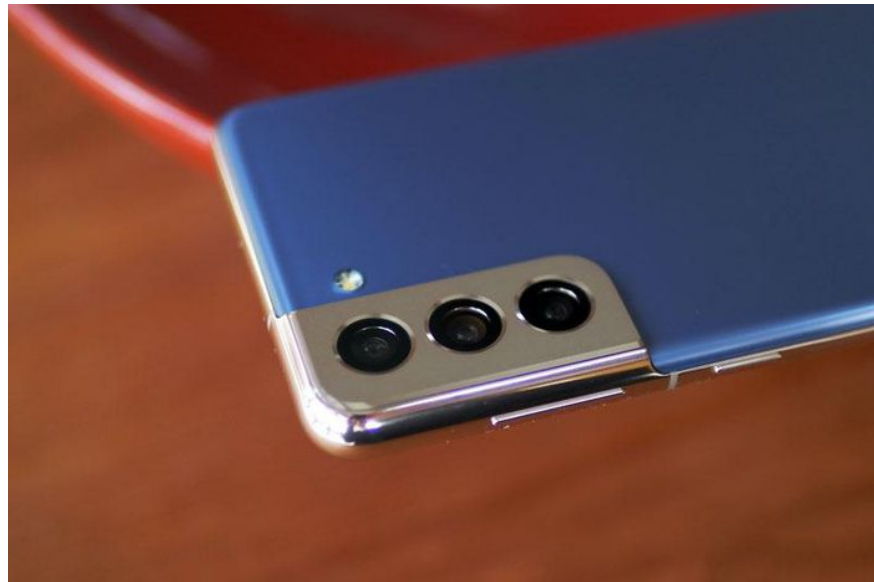

The 10 MP, f / 2.2 selfie camera can also record 4K at 60 frames per second.

The ultrasonic fingerprint sensor built into the screen is 70% larger than the Galaxy S20.
