

# Details of update 1.3 PUBG Mobile

The developer of PUBG Mobile periodically releases updates that bring many new features to the game. Here are PUBG Mobile 1.3 Update Details

The PUBG Mobile 1.1 update launched in November, and PUBG Mobile 1.2 launched in December of last year has been a huge success. So what's the next version - what's new in PUBG Mobile 1.3?

Like previous updates, the **PUBG Mobile 1.3** update also brings many new features, maps, weapons, and improvements to the game. Certainly these innovations will not disappoint players. Don't wait any longer, we will together find out the content of the 1.3 PUBG Mobile update shortly.

## Update 1.3 PUBG Mobile

### 1. Map new Classic mode: Karakin

The PUBG Mobile 1.3 update introduces a new Classic mode map called **Karakin**, located on the coast of North Africa. It stretches for 2 square kilometers and this is an open, rocky and arid area. Basically, Karakin is a thrilling little map that combines the tension of **Miramar** with the fast-paced gameplay of **Sanhok**. Up to 64 players will be able to participate in each match.

You will experience long-range gun battles in the mountains, dramatic city battles that require strategy, and intense skirmishes in the dark ground. Map Karakin will give you the feeling of each match taking place on a different battlefield.

### 2. New mechanism: Demolition Zone

**Demolition Zone**, demolition area will immediately collapse buildings on the map Karakin. Destroyed zones are designed to get players to leave the buildings and make gameplay more intense, intense and enjoyable. Damage is random and unpredictable.

The process of the buildings turning into rubble takes place in real time during the match. Even at the end of the battle, the buildings here could disappear at any moment. The player needs to run away from the area if they are in the Purple Region when the alarm goes off.

### **3. New mechanism: Bullets can penetrate thin walls**

Now bullets can penetrate thin walls of Karakin. If you find an enemy hiding behind a damaged wall, you can choose to engage immediately, or retreat temporarily and wait for your teammate's assistance.

### **4. New type of bomb: Sticky Bomb**

This can be bad news for camping enthusiasts. This new addition in the game will create more fun gameplay for players to experiment with. This special bomb will destroy the walls in Karakin and damage the camping player. Sticky bombs can stick to walls and explode them. This will introduce more interesting gameplay for players to experiment with.

Once they explode, broken buildings will provide more shooting angles. In this new update, PUBG Mobile has also prepared a lot of hidden spaces for you to find, so don't forget to bring a bomb or two with you.

### **5. New weapon: Panzerfaust**

Panzerfaust will only be available in the Airdrop and will be available for a limited time period. Panzerfaust gun launches missiles, exploding on target. It deals damage to targets within 6 meters of the point of impact. Panzerfaust's rockets can smash thin walls and penetrate objects at close range.

The player can also use this weapon to destroy walls. Besides, the Panzerfaust is a disposable weapon. In addition, launching a missile from Panzerfaust will damage all characters within 3m from the rear of the rocket launcher. Be sure to check your surroundings before firing. The Panzerfaust can be adjusted to shoot 60m, 100m or 150m.

### **6. New gun: Mosin Nagant sniper rifle**

Another weapon that is also coming to PUBG Mobile through the 1.3 update is the Mosin Nagant. This gun will appear on the Erangel and Vikendi map. It is a 7.62mm bolt-action sniper. The special feature of this gun is that the ammo does not reduce damage with distance. If the enemy has no armor, you will be able to knock it down with a single shot.

### **7. New vehicle: Motor Glider**

Motor Glider is a vehicle for 2 people, including 1 front seat for the driver and 1 rear seat. Vehicles will spawn randomly in Miramar and Vikendi. The special feature of this vehicle is that players can use the weapons they want on the vehicle.

The player will be able to drive the Motor Glider by moving a ramp to gain momentum and then press the Up button to make it fly. Note that fuel consumption is directly related to the engine speed. The faster the car speed, the more fuel consumption.

## 8. New Arena map: Code-C

The PUBG Mobile 1.3 update also adds a new arena map. This map will bring some changes to the regular match. Code-C is small in size and has many long, narrow paths suitable for extremely fast-paced gameplay. This map is especially suitable for players who like to participate in fierce battles. And it has enough space for players to use rifles, SMGs, and snipers.

PUBG Mobile 1.3 update brings a lot of exciting content and these were available on the test server before it officially launched. Players can download and play PUBG Mobile 1.3 Beta from today.

Update :
