Following the three 'VVV' sects, what is this, I now introduce to you the Perfect World VNG 3 'YY-P' sect, let's see what are the sects.

Perfect World VNG has just opened the experience, but is an account limit, so many players are uncomfortable because they can not test the features, as well as their desired discipline. Well, wait for the mass release and in the meantime, let's take a look at the other 3 factions to see if there's anything special!

'YYP' is no stranger to Beasts, Elves and Mages.

Love Animal

Occupation: Chamber of Water, Pursuit

Weapon: Hammer

Love Beast has 2 state of human and animal. The most interesting form of health, high defense, high defense. Human form, the rate of rage and dame is quite large.

Special: Beast has higher HP, higher damage. Whether it's PK, mass War or extra version, this is still a skill that deals great damage.

Love Beast is the most powerful pure tank character class in Perfect World VNG and is one of the character classes that must always be in the party if you want to stay in the melee battle. Although the attack speed is quite slow, but Beast is extremely strong and powerful when dealing tons of standard damage. In addition, the Beast can transform into an animal form with significantly increased defense stats and the ability to provoke and chase enemies quickly.

Thanks to the ability to absorb abundant damage and sharp counterattacks, Beast is often quite friendly with new players because it is quite easy to play, safe in the construction direction.

Leprechaun

Occupation: Damage, Reduce disadvantages

Weapon: Stick (Caduceus)

Elves in the PC version called Tien Thu, have the ability to tame all the monster you pet, but it is known that when the mobile version has been remade this ability can only tame the PET in the list.

Elves are the class of characters that approach the opponent and cause the most monstrous damage Perfect World VNG. Instead of approaching the target directly with martial arts, magic, she likes to draw blood from the

enemy with poisoned damage over time, accompanied by the ability to solve extremely uncomfortable enemy buffs. And then the Elves spoiled torment, ending the prey that no longer resisted. In particular, the Elves' faction also has the ability to summon summoned beasts to harass the opponent with optimal protection skills, as an absolute defense for its owner.

If you are wondering what 'VVV' is, don't be impatient, we will answer it right away . These are the three denominations starting with the V in Perfect World VNG.

Elves also have two forms of fighting: Beasts and Beasts. Elves can freely change their shape while fighting, when transforming, the movement speed will increase extremely flexible, escape the pursuit of super dame like Vu Mang, or the Wizard.

The outstanding feature is that Elves have the ability to REMOVE beneficial buffs, causing Beasts or any faction to meet Elves must stay hundreds of kilometers away. Not to mention the Elves' extremely annoying ability to reduce therapy, making this sect always HOT on the fronts like PVP Bang, crowded PVP and Cong Thanh Chien.

However, the weakness is that Elves are hard to find slots when passing the clones because this faction is quite useless in PVE.

Magician

Occupation: Damage, long range

Weapon: French sword

With the ability to clear monsters on a large scale and long range, the Wizard is quite mobile in passing the supplement. In addition to the skill set with control and buff to increase survival, this faction always has a certain position in all team activities. Especially, this sect has an absolutely important position in GvG battles (Territorial War, Guild War) or the main position causing damage in the supplement.

Besides, the Wizard is considered the destruction of the crowd in Perfect World VNG, the Wizard can let enemies evaporate with just a wave of his hand. Thereby this sect has the ability to dominate the elements to release destructive energy with super wide area of ??damage. In return, the defense of the Wizard is extremely weak and easy to lie down when approached by enemies to blow. But that is not a critical weakness of the Sorcerer because this sect is equipped with some skills to be able to keep a safe distance and escape from enemy raids.

However, escaping often causes the Wizard to move away from the protection of his comrades and become a good bait for the enemy. Therefore, players of this sect always need allies to be a strong tanker and a person to recover in order to be more stable in the fight. Shamans with large area magic damage with high damage and control, are a real nightmare in the battlefield or medium and large PvP battles.
