

Discover a portable speaker singing karaoke for less than 2 million VND

Soundmax M-6 is a portable speaker model similar in design to a versatile, easy-to-move, large volume suitcase suitable for outdoor excursions. Many such highlights, but the price of Soundmax M-6 makes many people surprise when stopping at less than 2 million VND.

Soundmax M-6 is a portable speaker model similar in design to a versatile, easy-to-move, large volume suitcase suitable for outdoor excursions. Many such highlights, but the price of Soundmax M-6 makes many people surprise when stopping at less than 2 million VND.

Can't take your eyes off Soundmax M-6

Looking at the design of the Soundmax M-6 portable speaker can see this manufacturer is heading to the group of people who need to use speakers for group outings. As a pull-up suitcase with a full handle and hand pulls with the wheels, Soundmax M-6 allows you to move easily on any road.

Soundmax M-6 has the same design as a pull suitcase.

Undeniably the attractive appearance of Soundmax M-6 karaoke speakers has made many music lovers beloved. The elegant colors combined with the striking yellow wings feature of the suitcase line with silver metal mesh details help protect the low middle speaker and the speaker inside. Overall, compared to the current travel speakers on the market, Soundmax M-6 is quite luxurious and hardly any competitors can overcome the design

in this price range.

Soundmax M-6 is cheap but its features are not cheap

The Soundmax M-6 speakers feature the full range of Soundmax products recently released, including support for bluetooth wireless music playback, music playback from memory cards, USB memory sticks as well as Traditional 3.5mm input. In addition, Soundmax M-6 is also included with a wireless karaoke microphone and integrated 6.3mm input for users who need to connect a second microphone to sing duets.

Soundmax M-6 is equipped with many attractive features.

In order to best meet the demand for mobile use, the Soundmax M-6 speaker is integrated with a 2,200mAh capacity rechargeable battery that promises to be able to play music up to 3 hours and 30 minutes with a full charge. Actually this is not a bad number, sometimes it is impressive when you experience the power that this speaker model can bring.

Get off with Soundmax M-6 without worrying about running out of battery.

And yet, this karaoke portable speaker is also attracted by the recording feature, the priority feature for the microphone (automatically reduces the volume of music when users speak through the microphone). The Soundmax M-6 pull candy speaker user can also easily customize the volume of the music, treble, volume and reverberation of the microphone as well as the basic music playing function (play / pause, switch songs).

Quality and experience using Soundmax M-6

With practical testing, Soundmax M-6 karaoke speakers show a full range of Bass and force, quite deep down and very good control of the tones. The Mid range is quite sweet and smooth, along with a bright Treble band that makes the song very well. When combined with three tones of music, the sound is quite separate but at a high level, Treble seems to be weaker than the other two bands. Still, Soundmax M-6's overall sound quality is generally easy to get into.

Soundmax M-6 provides excellent sound quality.

In short, Soundmax M-6 is really a large portable speaker model that can accommodate both portability and good looks as well as a good and powerful sound quality for a large space. Although there is a lack of trendy features, many other products are equipped with a number of disadvantages in sound quality, which can make difficult ears less satisfied, but with a price of less than 2 million VND. Soundmax M-6 karaoke is still a difficult choice to ignore at the moment.
