### **1. Line Up Combo Mage**

**MAGE** Level ?

ABILITY: Passive  
AFFECTS: Allied Units

Spellcasters that deal great amounts of magical damage.

*Class Combo: Magic Vulnerability*  
Active when there are at least (N) different mage chess pieces on the chessboard.

(3) Mages: Magic resistance decreased by 50% for all enemies.  
(6) Mages: Magic resistance decreased by an additional 30% for all enemies.

The use of General Mage as the main damage is considered to be very popular today with the effect of reducing 80% of magic resistance which makes Mage generals about the time of late game very scary when combined with skills like Tide or Kunkka makes the opponent fall very quickly.

If you are lucky, you will get 3-Star Crystal Maiden, this time your team will always have the skill in front of the opponent and the enemy has not done enough to eat enough damage on them. Note that to build a good Mage you need to have a good tank team behind you, so you can combine Mages with well-tolerant Line Ups like Warrior, Knight or Goblins.

## 2. Line Up Combo ELF

The possession of ELF generals is not too difficult, the nature is also very strong. In addition, Elf has a connection with Druid, so the chances of getting a 3-star general of the Druid industry are also very easy. Elves are also easy to combine with Race and many other Classes like ELF - Dragon - Assassin, or ELF - Knight or ELF - Druid goes with Goblin. But most often, Elf is combined with Dragon and Knight.

The ELF is almost exclusively overcome by a set of Mage with the ability to deal strong damage. If fighting against melee heroes, "game is easy".

### 3. Line Up Combo Hunter, Knight, Warrior, Demon

CLASS	
<b>ASSASSIN</b>	ALL FRIENDLY ASSASSINS HAVE 10%, 20% CHANCE TO DEAL 4X DAMAGE 
<b>DEMONHUNTER</b>	CONSIDERED AS AN ENEMY DEMON 
<b>DRUID</b>	TWO ★ DRUIDS CAN UPGRADE TO A ★ ★ DRUID TWO ★ ★ DRUIDS CAN UPGRADE TO A ★ ★ ★ DRUID 
<b>HUNTER</b>	ATTACK DAMAGE INCREASED BY 25%, 35% FOR ALL FRIENDLY HUNTERS 
<b>KNIGHT</b>	ALL FRIENDLY KNIGHTS HAVE +25%, 35%, 45% CHANCE TO GET A SHIELD 
<b>MAGE</b>	MAGIC RESISTANCE DECREASED BY 30, 60 FOR ALL ENEMIES 

These four Line Ups are often used to combine with line ups like Elf or Mage. Warriors and Knights are often used as main tanks for these two teams.

But Hunter, which has a strong and stable damage, but in late game when facing a miss-capable Elf, will not promote his power. Demon squad is also quite strong, but it's not easy to deal with magic damage

### 4. Line Up Trolls, Goblin.

The Trolls squad is now usually biased towards physical damage, the troll generals are also not very influential in the arena. So Trolls are often taken depending on the situation, if enough, you can always put in to strengthen the squad.

As for goblins, this is a new squad that has a significant increase in power when there are 6 goblins on the board and with bishops under the bishop, the games tend to last longer so players have time to get their children The last goblins, but if you roll and don't see it, it's like a Goblin squad will be slightly outdone compared to the other roster.

Moreover, in high rank matches, the grandmasters often tend to build formations to help quickly finish the enemy, so if you don't get to level 8 soon to get a chance to roll Techies, you will "run out of water." " to go.

## 5. Line up Dragon, Undead, Warlock, Naga

These Line Ups will increase survivability or assist in increasing damage to the main line up above. For example, Warlock will increase the ability to color appropriately for Line Up Elf or Dragon. The Undead has the ability to reduce the defenses that increase the damage to Hunter or Naga to increase resistance to help defend against Mage's formation.
