

# Download and experience Dungeon Chronicle, action RPG for those who love Diablo on mobile

Dungeon Chronicle is a Diablo-style action role-playing game released by BUNKERim Studio.

Dungeon Chronicle is a Diablo-style action role-playing game released by BUNKERim Studio. Currently, Dungeon Chronicle for Android users is being released for free on the Google Play store. If you're a Diablo fan, try this fascinating Dungeon Chronicle game.

In the Dungeon Chronicle, players will have to go through dark, endless dungeons and full of dangerous enemies. There are countless different basements that players will have to overcome, each floor is a different challenge, passing will win rewards, weapons and valuable equipment.

Similar to Diablo or Torchlight, one of the famous legendary RPGs for a while, players can equip more than one weapon for their character. But depending on your preferences, players can optionally change between 3 different weapons.

In addition, the graphics in Dungeon Chronicle are also quite impressive for players. The characters in the game are designed with cute chibi, the fire effects are quite beautiful and the gloomy environment will give players interesting experiences.

Currently the game only appears on Google Play and due to free, sometimes ads will appear. To be able to experience the game better, players can choose to remove ads by paying a small amount of money through the in-app purchase system in the game.

If you were a "hard fan" of Diablo or Torchlight, Dungeon Chronicle will be a game that should not be overlooked.
