

Download and experience iOS 11.4 Public beta is more stable than Developer version, and has AirPlay 2

Immediately after the release of iOS 11.4 beta for developers, Apple has released a version for users who are participating in public beta.

Immediately after the release of iOS 11.4 beta for developers, Apple has released a version for users who are participating in public beta.

With iOS 11.4 public beta, users can continue to use AirPlay 2 feature (stream music from iPhone or iPad to other devices) that have been removed by Apple on iOS 11.3.

In addition, ClassKit - learning support tool is also added in this OS 11.4 public beta version. ClassKit works with the Schoolwork app on the iPad, helping teachers and students monitor the progress of learning more easily.

This is just a trial version, if you want to try iOS 11.4 iPhone / iPad, users need to register on beta.apple.com website using Safari browser. After successful registration, the update will be ready to download and install, just go to **Settings-> General-> Software Update** to update.
