

Download beautiful Galaxy S20 wallpapers before 'release'

The Galaxy S20 wallpaper set was released just before the Galaxy S20 device debuted in the next few weeks.

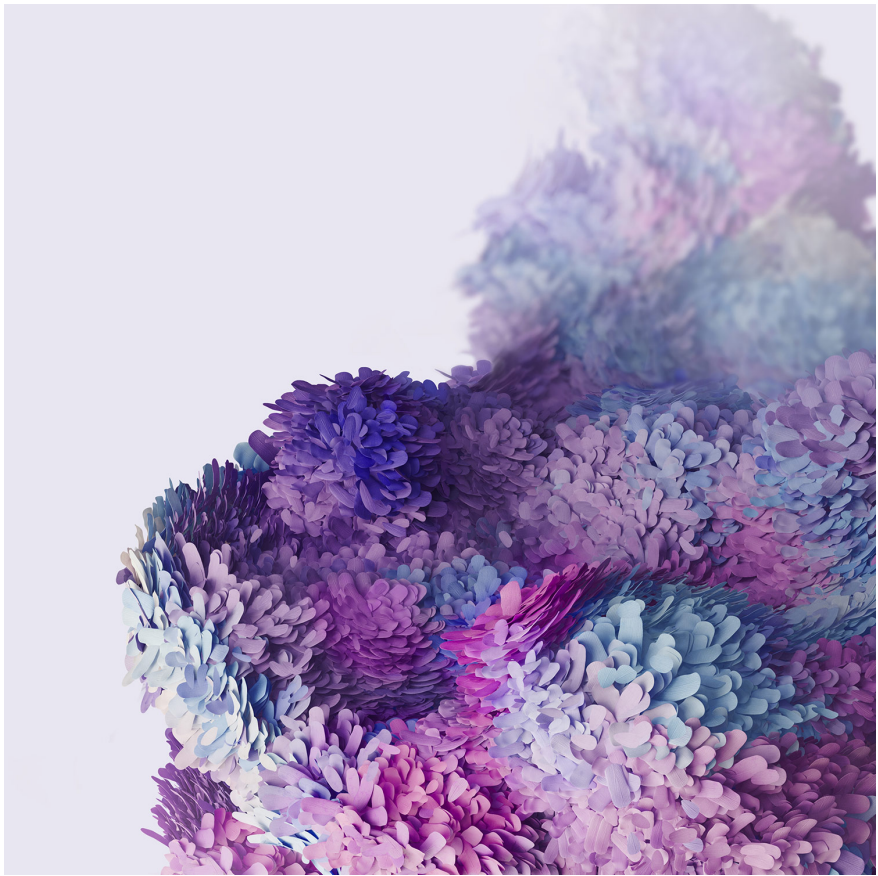

According to official information, in early February, Samsung will launch Galaxy S20, S20 + and S20 Ultra at Unpacked event. Each of these devices is equipped with screens of 6.2 inches, 6.7 inches and 6.9 inches, using Super AMOLED panels with 2K resolution and 120Hz refresh rate. And before the Galaxy S20 officially launched, we were able to download some Galaxy S20 wallpapers with beautiful quality and large size, the resolution of the image up to 3200px x 3200px, suitable for almost any smartphone line. . A number of wallpapers for the Galaxy S20 have been shared by members of the XDA forum. The color of each wallpaper is suitable for each different model, so users can imagine what the design color of the Galaxy S20 is. Wallpaper of Galaxy S20 is very simple, not too picky, many details are simply bubbles, petals with different colors but still create art.

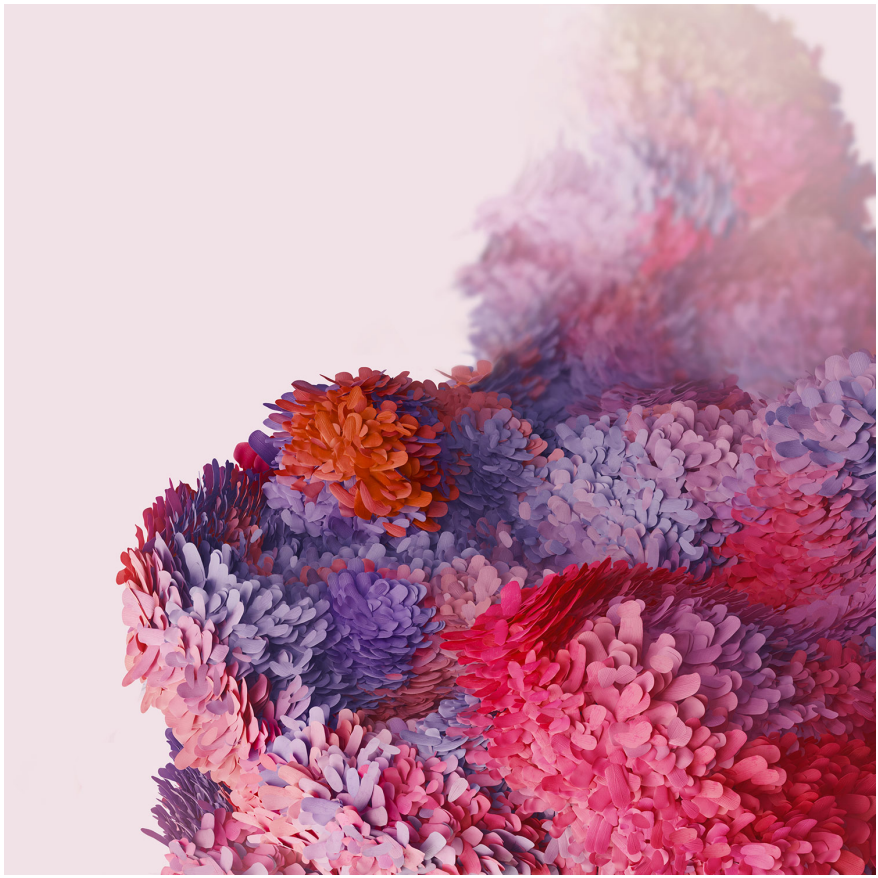

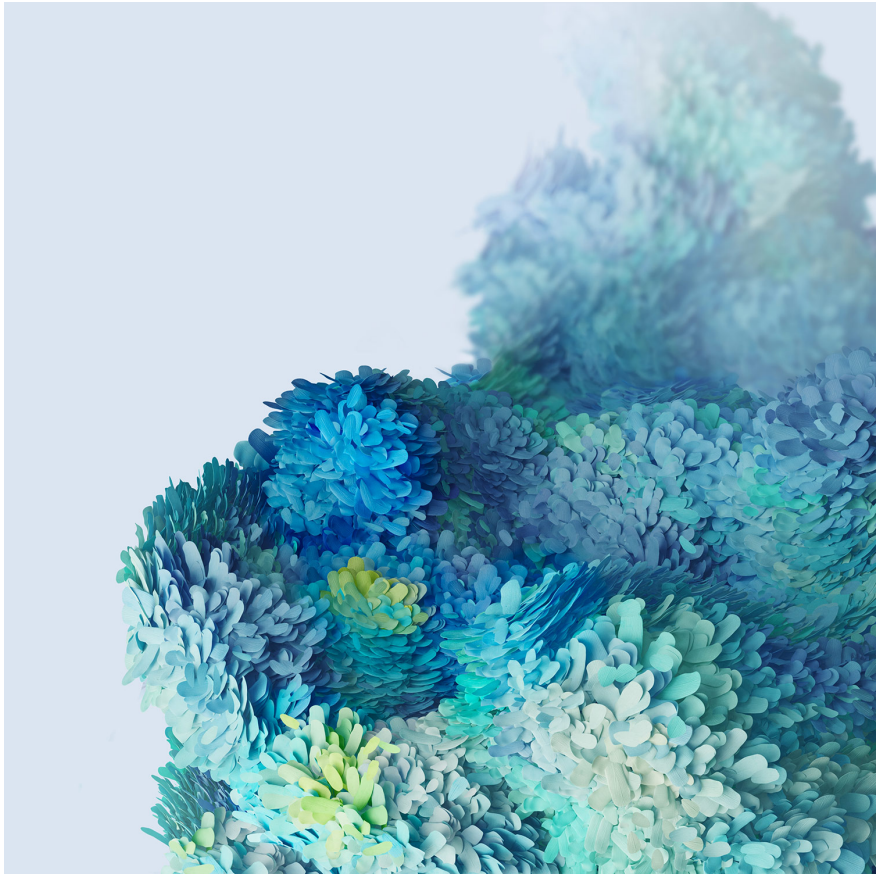

Download the Galaxy S20 wallpaper color pack
