Blacker is an application that provides free high resolution black wallpapers from HD to 4K for machines with AMOLED screens with many different topics such as landscape, city, space and even wallpaper plan to have black tones of smartphone firms .

AMOLED screen is advanced screen technology with the advantage of brilliant color reproduction, pixels only glow when displaying color (images will turn off when the image is black). This will help the device save battery power and bring deeper black. Therefore, users who own devices with AMOLED screens all love using dark backgrounds.

If you are using a smartphone with an AMOLED screen, Blacker is the application that provides a dark theme wallpaper that you should not ignore.
