Earth Atlantis is a horizontal scrolling shooter with pure Monster-Hunting gameplay developed by Thailand's Pixel Perfex.

Earth Atlantis is a horizontal scrolling shooter with a pure "Monster-Hunting" game developed by Thailand's Pixel Perfex. In the game, players will play the role of a hunter with the task of controlling the mini submarine to explore the deep sea world and hunt scary monsters.

During their journey, the player must control the submarine weaving through the ruins, the ancient cities, and avoiding the mines left behind after the war. During the game, players can customize or upgrade their submarines.

The submarine models in the game are designed differently, most of them are transformed in the shape of sea creatures and equipped with many unique weapons.

Earth Atlantis possesses 2D graphics combined with unique hand-drawn images designed to make the game more attractive to players. The game has a fast-paced gameplay that brings exciting experiences to the player.

The game has two main modes of mission and hunt for monsters with three difficulty settings are basic, medium and challenging.

To win the player must face and fight with 25 types of large monsters, 4 enemy ships and 9 special events to complete.

Currently, Earth Atlantis is being free for a short time on the App Store, if you love this horizontal scrolling game, please download it quickly before the promotional period ends.
