Evolution is an attractive space war game. In the game the player will be transformed into the Captain to master the command of modern and massive space spacecraft.

In Evolution, spacecraft is divided into categories such as Highspeed, Fighter, Stealth, Support and Tank. Each category is equipped with its own weapon system, which determines the skills that players use for their spacecraft.

Evolution has a gameplay style similar to World of Warships and bears the influence of war games.

Currently, the Evolution game is being given away for Steam by developer HyperReuts for a short time. If you love the universe war game genre, you can follow the instructions below to be able to own it without spending a dime.
