Microsoft has just released a free racing game called Miami Street for Windows 10. Without a keyboard, with Miami Street you just need to use the mouse to accelerate and brake to defeat the opponent and tear the wind to the finish line in the perfect way. all new.

Miami Street's gameplay is quite similar to popular mobile racing games like NaturalMotion's CSR Racing. It was developed by studio Electric Square.

Originally, Miami Street was designed specifically for a foldable device that Microsoft is developing called Andromeda. But recently, Microsoft has allowed users to download and play this racing game on a Windows 10 computer. Currently, only a few countries can download Miami Street, but Microsoft said it will deploy it. This game is in many countries in the future.

Miami Street is not a racing game with a variety of features but it's simple, free and does not require a high-configuration machine that has attracted players.

How to install the free Miami Street game on Windows 10

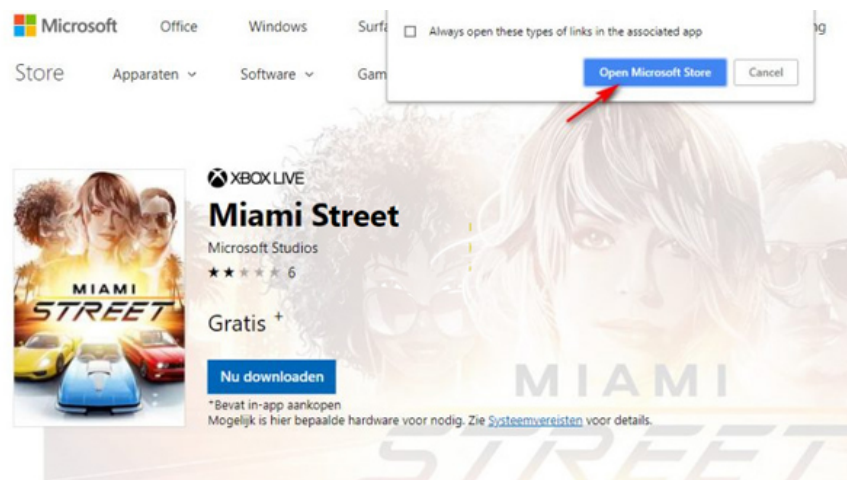

Step 1: Access the installation in Windows 10 to change the country to Netherlands (Netherlands).
