

Download Voice Recorder Pro application for free for Android

The app has a base price of \$ 0.44 but is available for free installation until June 1, 2018. If you are interested, please download it quickly before being charged again.

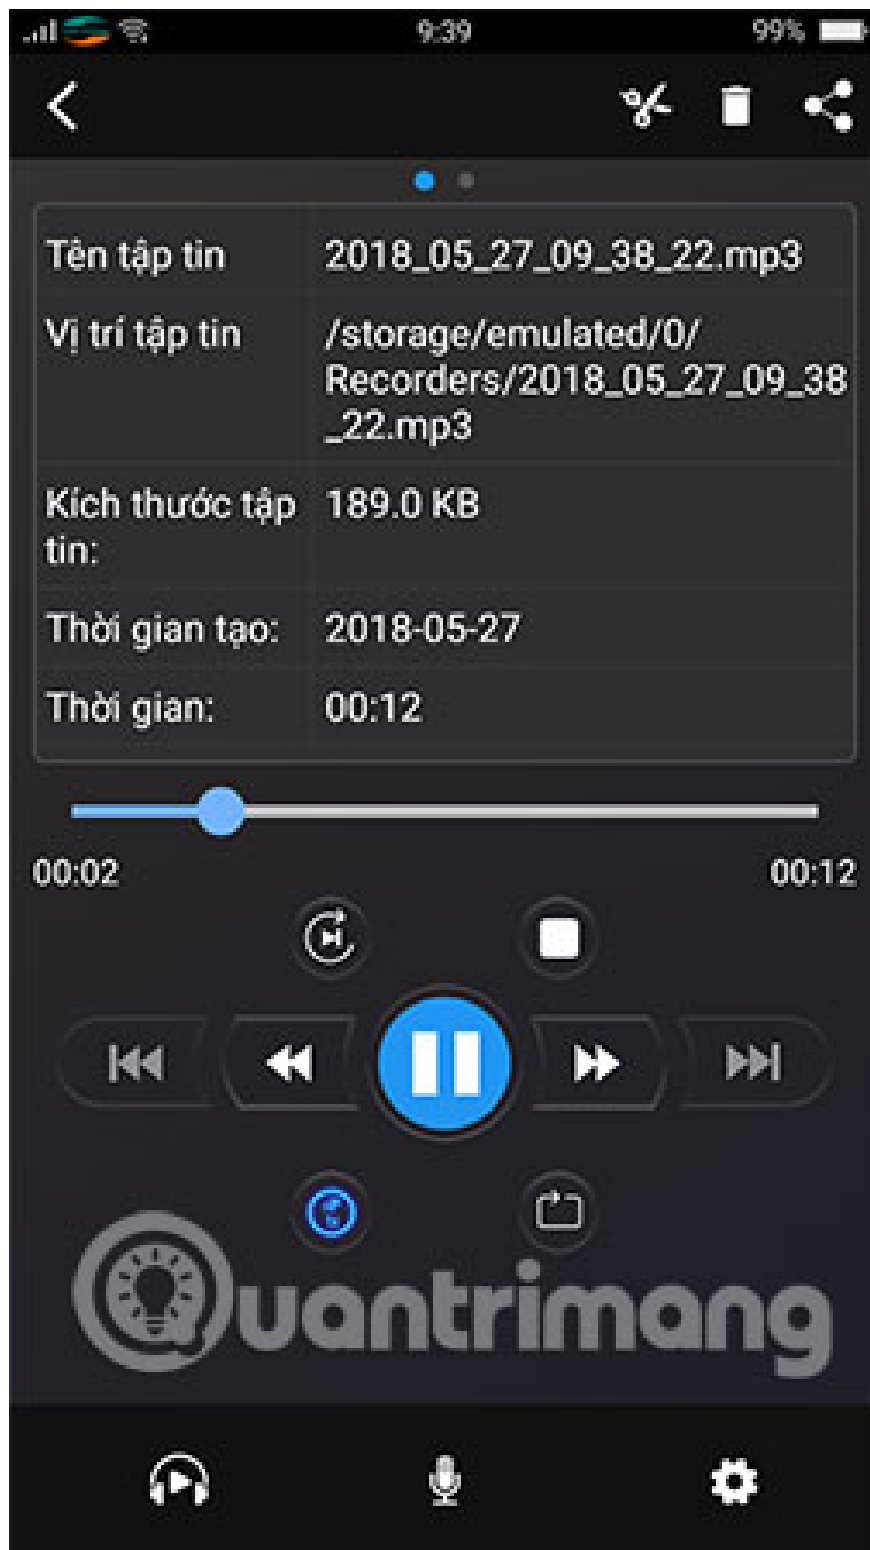

Currently, Voice Recorder Pro application developers are giving users the opportunity to download this software for free in a limited time. Application is a high quality recording tool with many unique features. Basically, Voice Recorder Pro can record most of your audio and voice: Support recording meetings, personal notes, speeches, lectures, songs, . without limitation of time time.

The app has a base price of \$ 0.44 but is available for free installation until June 1, 2018. If you are interested, please download it quickly before being charged again.

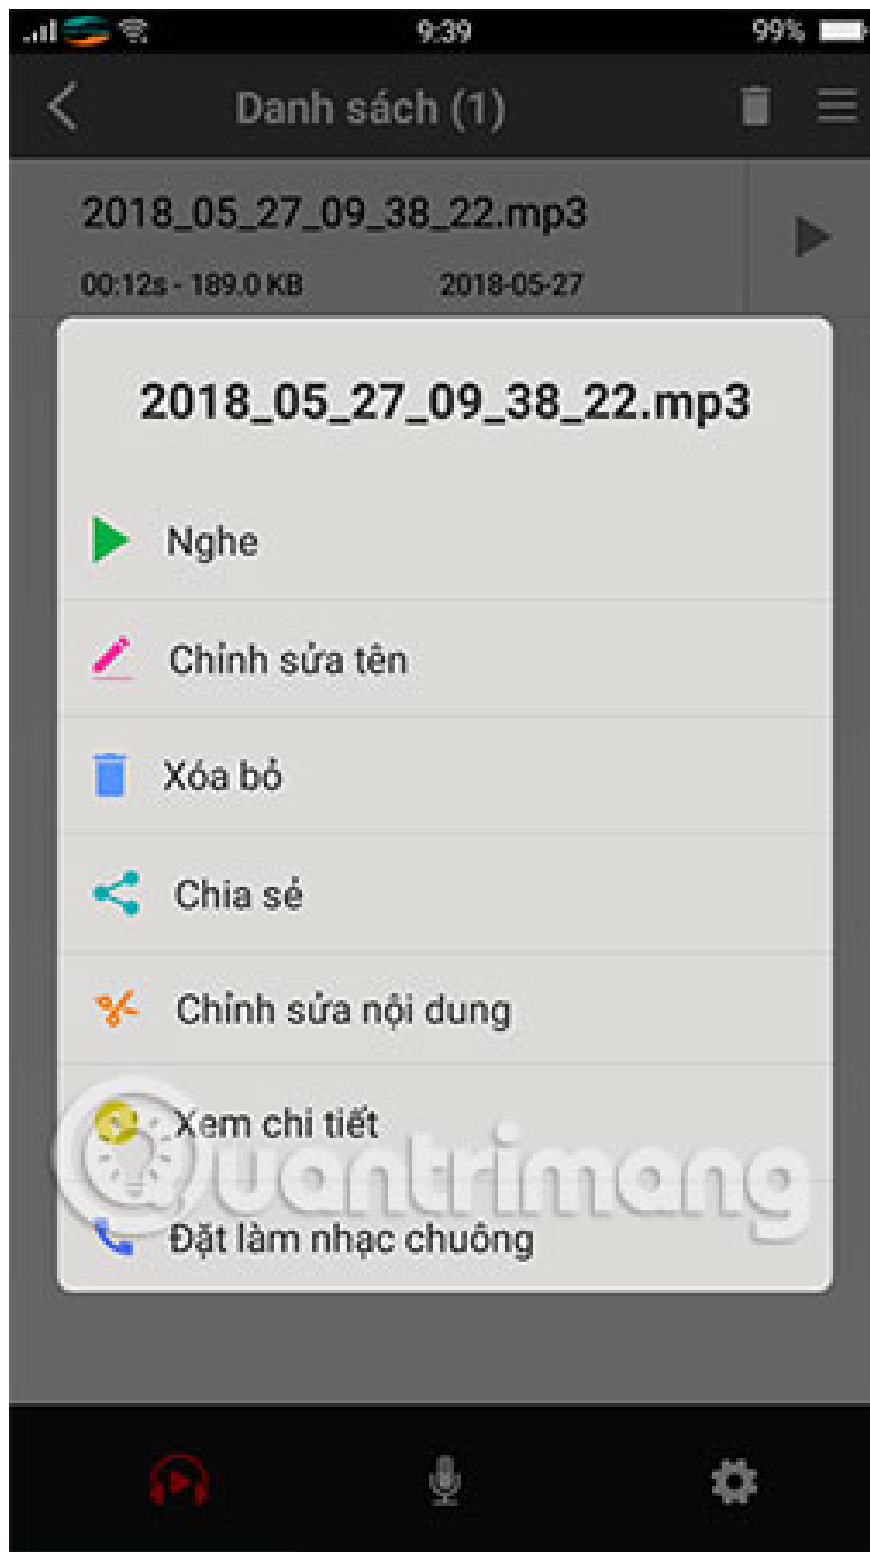

Using Voice Recorder Pro is simple and easy because the application supports Vietnamese. To record, press **the red dot button** . The application also displays the amount of free space left on the phone to help you calculate the recording time when the device has too little storage space.

You can pause during recording, even recording when screen is off. After recording, press the **Stop** button - **The red square icon** and **name the recording file**> **press OK** to save. The recording file is saved to the memory in the device in the Recorders folder with the default format of MP3.

You are allowed to manage these audio files on the application, it is in the **List** section, click **the headset icon** . When you click on the audio file, it will display options like the following.

If you want to cut, extract part of the recorded content, select **Edit content** and follow the instructions on how to do it on the screen.

As mentioned above, the default recording file will be in MP3 format. However, the application also supports adding WAV format in the **Settings** section. Select **the gear icon icon**> **Record file type**.
