Windows 10 Enterprise N: DPH2V-TTNVB-4X9Q3-TJR4H-KHJW4

Windows 10 Education: NW6C2-QMPVW-D7KKK-3GKT6-VCFB2

# **WINDOWS 10 VERSION 1909 WHAT'S NEW?**

## **1. Windows 10 Version 1909 Does Not Requires Reinstall**

If you are already running Windows 10 May 2019 Update, version 1903 then your device will get version 10 1909 as a cumulative update through Windows Update and the installation will be similar to the updates. Update you receive each month. Using this new method, Microsoft hopes the upgrade will be faster and less intrusive as it doesn't require a complete reinstallation.

However, if your device is running an older version of Windows (such as an update from October 2018), the upgrade will require a full reinstall of Windows 10.

As usual, Microsoft plans to use artificial intelligence to detect and deliver updates to compatible devices, thereby minimizing issues during deployment. Until the new version has been fully tested, the company will support the update more widely.

You will also be able to install Windows 10 1909 Update using the Media Creation Tool and Update Assistant, the installation process will remain the same as in previous versions. Or you click [Link to download ISO file Windows 10 ver 1909](#) to see instructions on how to download the installer now.

## **2. Windows 10 Version 1909 Is An Optional Update**

Microsoft plans to release this feature update as an optional update, meaning it won't download itself if you don't start the Windows Update installation manually. However, if your device is running an expiring version of Windows 10, 1909 will also install automatically.

## **3. New Features**

In terms of new features and changes, Windows 10 version 1909 is just a minor update with some improvements related to notifications, battery life, and processor. You can also create events using a timetable and a few other adjustments.

## **4. Microsoft is Testing a New Update Method**

Despite announcing 2 feature updates per year for Windows 10 with some improvements, starting with version 1909 (19H2), Microsoft has decided to test a new way to protect the updates from a risk. violated.

Specifically, instead of releasing two versions that require full installation, Microsoft only publishes the first major update of the year (which will require reinstallation), and then a minor update that acts as one. Cumulative updates through Windows Update.

## **Some new features are updated**

1. Support for Alexa, Cortana on lock screen
2. Quick support for events in Calendar quickly from Taskbar
3. Allows you to customize the way notifications are displayed on Windows 10
4. Automatically expand the Start Menu to display more information for easy user choice
5. Change UI in File Explorer, and improve search capabilities
6. Boost performance and speed with Intel Turbo Boost Technology 3.0 (this feature only works on processors that support Intel Turbo Boost Technology 3.0)
7. Improved battery life
8. Improved performance when used with heavy software
9. Improved inking latency
10. Improved security mode on Windows 10.
