The Penbook drawing app on Windows 10 is available for free download until July 3, priced at \$ 19.99 when users can take notes, plan themselves, or sketch out ...

The Penbook drawing app on Windows 10 is available as a **free download until July 3** , priced at \$ 19.99 when users can take notes, plan themselves, or draw sketches on the app. Basically, Penbook can be considered as a Paint application, but there are many more functions, helping you create drawings as well as insert your images or signatures into drawings. Currently the program to download Penbook for free on Microsoft Store is only 3 days, so you should download it quickly to own a professional drawing application on your computer.

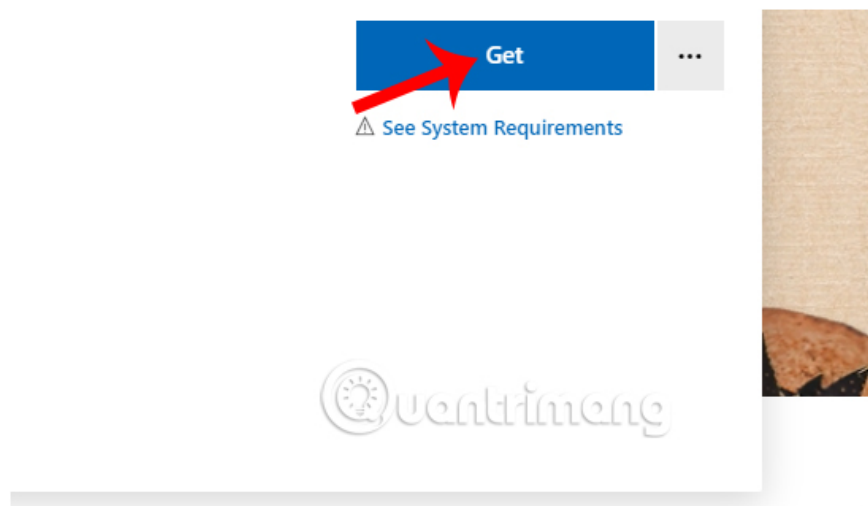

Instructions to download Penbook on Windows

Step 1:

Visit the link below to go to the Penbook app download page on the Microsoft Store

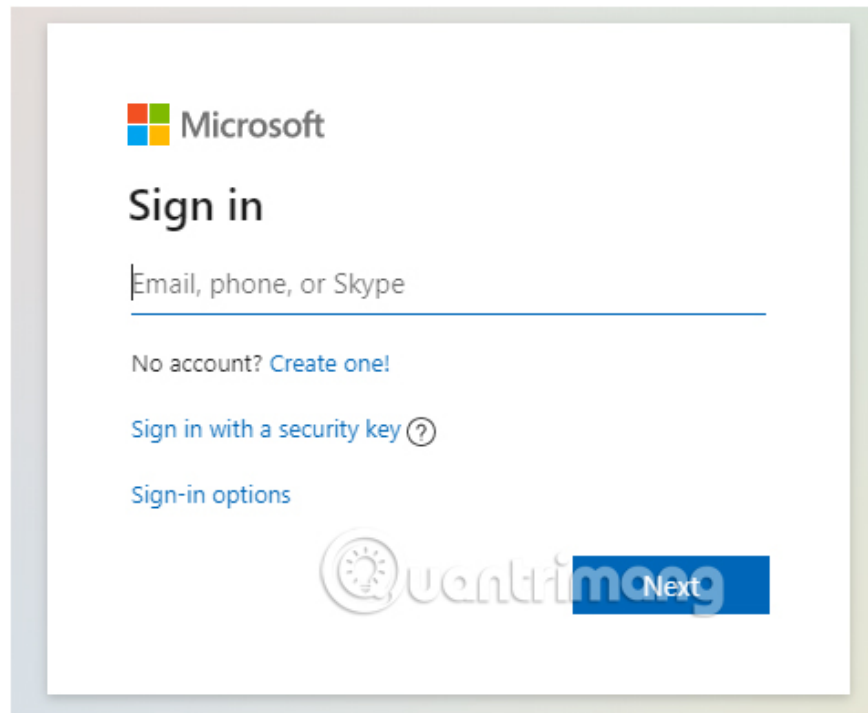

Download the Windows 10 Penbook app
<https://www.microsoft.com/en-us/p/penbook/9pl4gx47gt7k>

At this interface, you will see **the Get button** to download the application for free.

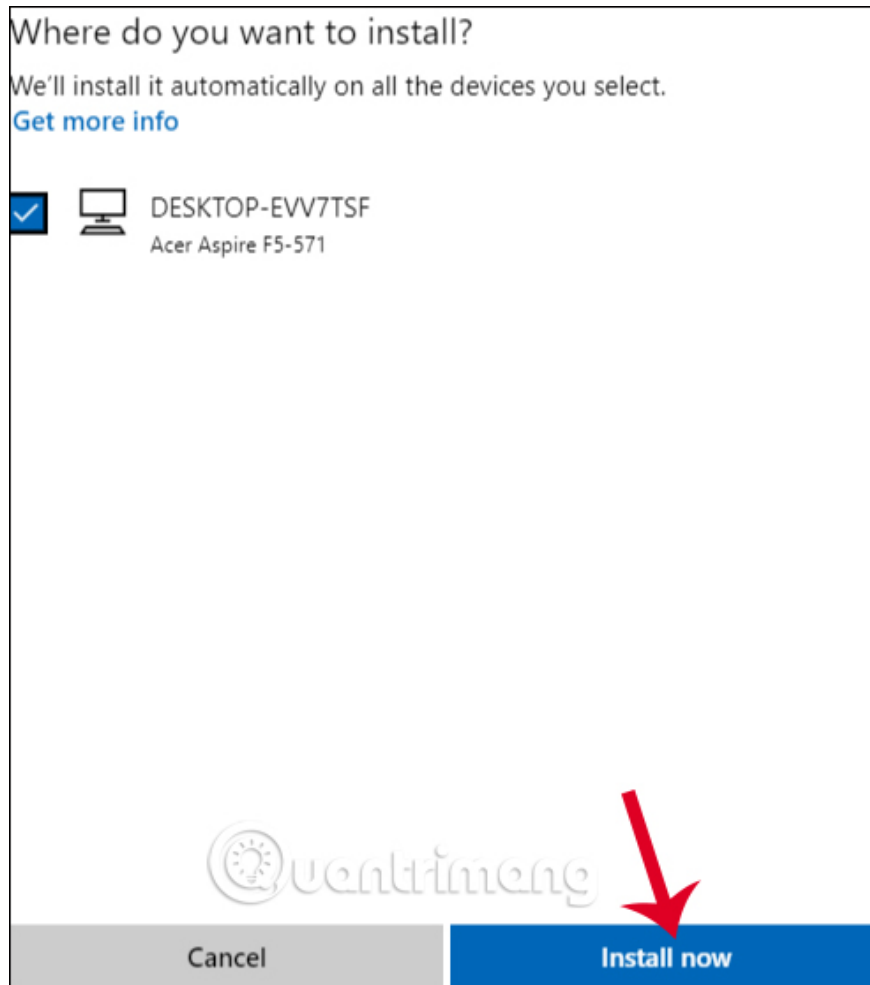

Step 2:

You will then be asked to **log in to your Microsoft account** to be able to download the application. We will need to enter the verification code sent to your account email address.

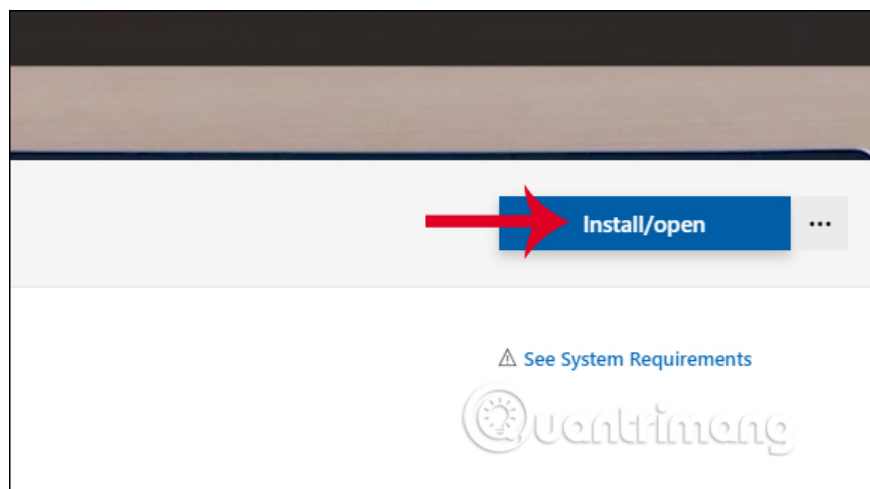

You should now see your computer name to select and download the application. 1 application download will only be used for 1 computer only.

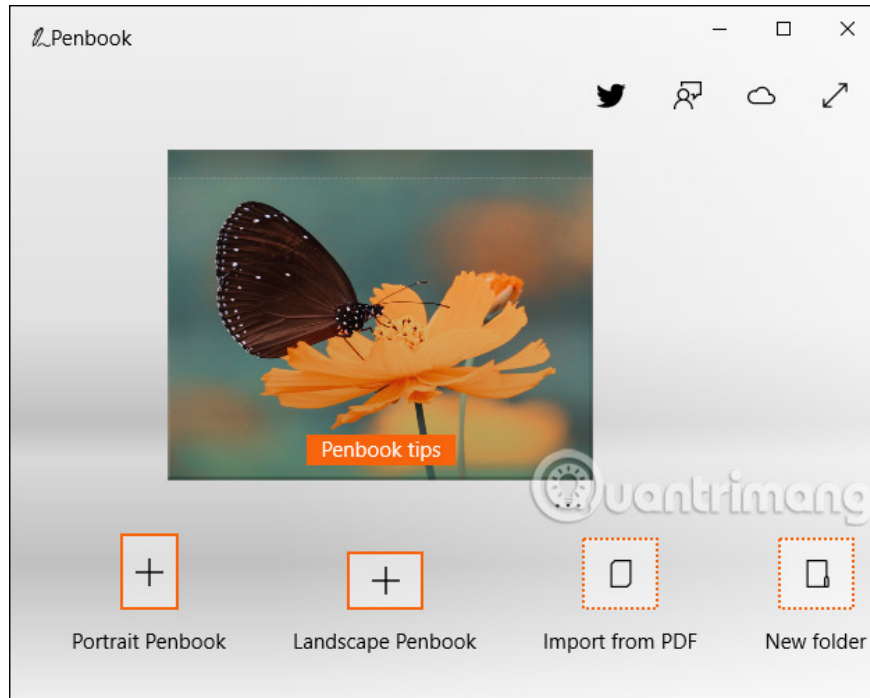

Step 3:

The application has now received the device name. Back to the application download interface, click **Install / Open** to proceed to the Penbook download process is finished.

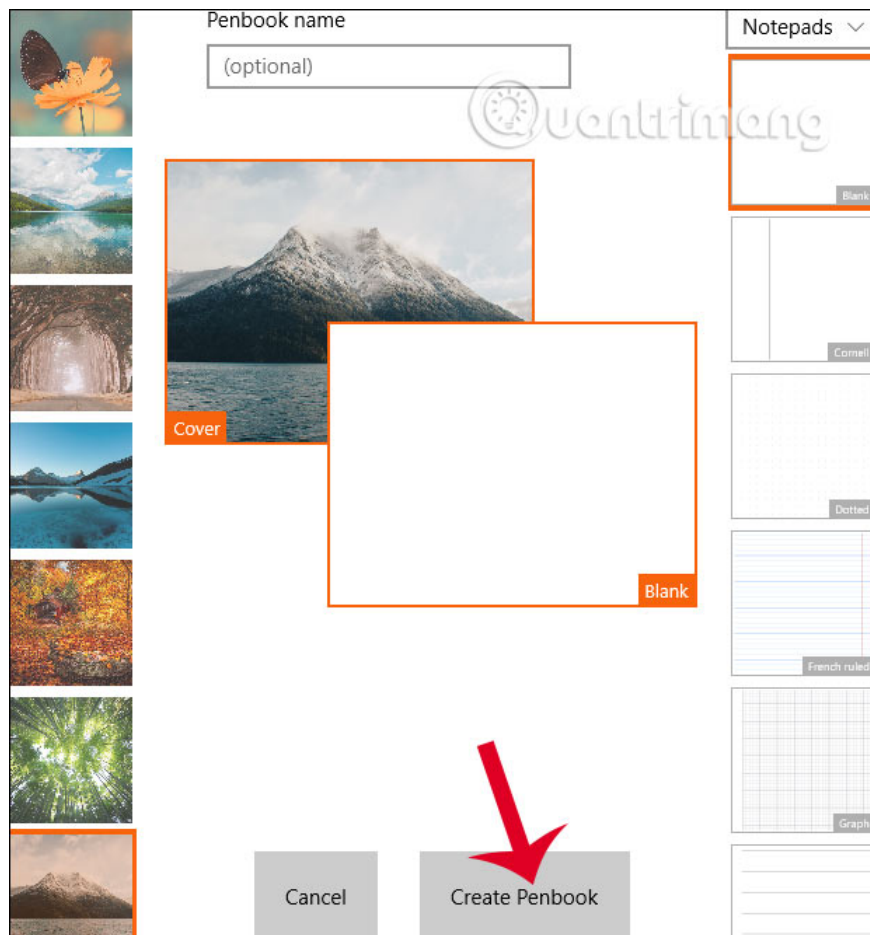

Step 4:

Below is the main interface of the Penbook application. We will choose a horizontal or vertical drawing or import a PDF file into the application.

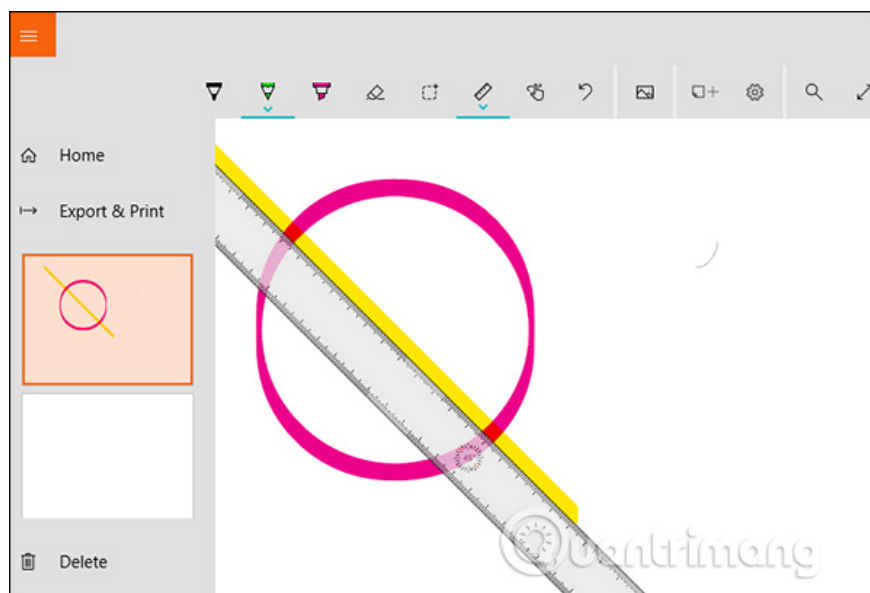

Step 5:

Then choose the left **cover image** and **the right page style** , then name and click **CreatePenbook** to create a new drawing.

Finally you use the drawing tools that the application provides to create drawings or write notes, depending on the job requirements.
