

Empire commands, command codes for playing Age of Empires

Gamers, especially those who play AOE games, should update their empire commands and cheat codes to play Age of Empires to be able to change the situation in the game easily and quickly as desired. The command code in Empire can help players increase resources such as wood, soldiers, and even gold.

Empire or AOE, the game associated with the 8x and 9x generations, has become an immortal monument after more than 20 years of launch and the attraction of this top strategy game has never decreased for gamers who love love this game series. Using the empire commands that TipsMake has compiled below will help you win easily in your game levels.

In the empire, there is **the empire command** - Or another way gamers call it when someone uses the empire command is Hack, which is a way for players to cheat with the Computer or other players. However, **playing empire** by using the empire command is not a bad thing for beginners or for those who like to create many different new things.

The empire command has a tremendous effect, not only helping you win in a short time but also helping you relieve stress when you lose too much to your opponents :D

However, to use commands in the game Empire, not everyone knows how to install them so they can ask for orders and know all the commands in Empire. There are many commands and divided into many different categories. Depending on each army, each battle, you can use commands to ask for food, ask for troops.

1. Installation instructions to get empire commands when playing the game Empire

Download and install the game **Empire** (or **AOE**)

To be able to ask for orders in the empire game during the game. In the initial settings section, you must select **Enable Cheating**

2. How to get empire orders

After entering the game, click **Chat** (or press **Enter**) -> Enter the command into the chat box -> Type **Enter** to complete

3. Summary of all Empire orders

3.1. The most basic empire commands

HC : Shortcut, command to ask people at main house

3.2. Summary of the empire's request for resources includes:

Summary of Empire commands such as orders for resources, orders for troops. are all shared by TipsMake in this article. When you know how to **command in Empire** or AOE, you will play the game much easier and more effectively.

In addition, Taimienphi received many questions about what the empire's order to the people is? How to ask people quickly? To answer you, in the empire without command, the empire asking for people is actually the HC shortcut to ask for people in the main house instead of having to click the mouse to ask for people.

You can also see **the meaning of numbers in empire** . This is an important factor to help you and your teammates understand each other better during competition. Typing numbers will also help you not spend much time typing characters so you can focus on playing the game better.

If you use Win 7 or higher, when playing the game Empire for the first time, you often have **to set the game screen to full** on your computer, then you can play Empire on win 7 and win 8 full screen.

Currently, every type of game has cheating in gaming or competition, users often use codes to buy items or change game settings. With the game GTA Vice City, users use **GTA codes** to play the game better.
