

# Epic Games Store gives away the 2014 AAA blockbuster to players in 2024

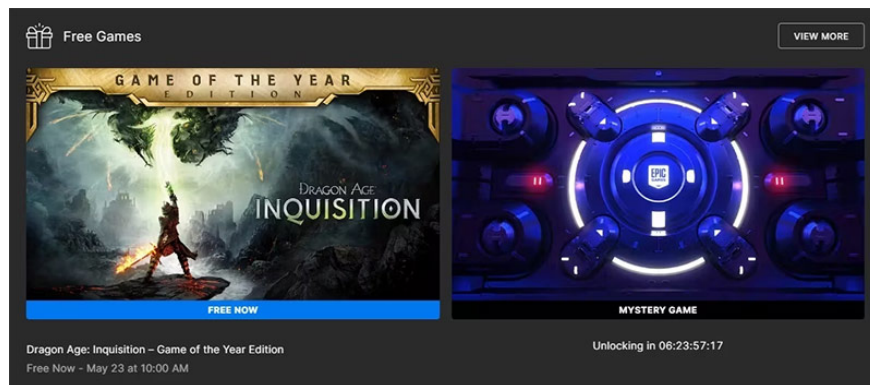

Epic Games Store's latest mysterious free game is Dragon Age: Inquisition - Game of the Year Edition.

As usual, Epic Games Store will announce the free game they will give away 1 week in advance. However, this mysterious game giveaway is an exception.

The Epic Games Store occasionally holds mysterious free game giveaways that will open after the first title has expired. These are often AAA blockbuster games, with larger budgets than other weekly free games. The goal is to attract PC gamers to visit the Epic Games Store more often by giving away blockbuster games that will not be revealed in advance.

And Epic Games Store's latest mysterious free game is Dragon Age: Inquisition - Game of the Year Edition. This is the game that won the first Game of the Year award at The Game Awards in 2014 when it surpassed many other strong competitors.

Even though it was released a decade ago, Dragon Age: Inquisition is still a game that is highly appreciated by critics and has won many awards. This is definitely one of the most notable free games from Epic Games Store in this Give Away period.

The Game of the Year version also has more content than the original version of the game. You will have more weapons, costumes and chests, more quests and even DLC packs will appear in this version. Of course they are completely free.

The deadline to get your hands on Dragon Age: Inquisition - Game of the Year Edition will be Thursday, May 23 at 10 a.m. before it is replaced by another possible blockbuster title. .

One thing for sure that players will know during this year's Epic Games Store free game is that Fallout will probably appear on the list. But it still cannot be confirmed that after Dragon Age: Inquisition - Game of the Year Edition will be Fallout, you can only visit the Epic Games Store regularly to see if there is Fallout in this Give Away or not.
