

Evaluate mouse game Tt eSports TALON BLU Avago 3050

Tt eSports TALON BLU game mouse Avago 3050 is a dedicated mouse aimed at gamers who love simplicity, sophistication, elegance and not too focused on features.

Tt Esports is the brand that is capturing the hearts of the majority of gamers when it launches a series of devices to support the game. And one of those devices is the TS eSports TALON BLU Avago 3050 game mouse , which is a dedicated mouse for games aimed at gamers who love simplicity, sophistication and elegance.

Mouse to play Tt eSports game TALON BLU Avago 3050

The first impression of the eSports TALON BLU Avago 3050 Game Mouse is the relatively simple motif, using only the blue LED to dominate the scroll button, the logo on the body and the sides.

Talon Blu Avago 3050 eye-catching by simple motifs.

TALON BLU's next attraction Avago 3050 is the bounce of the keys, especially the two main keys of the mouse and the fast-browsing pair. The dedicated mouse button for this game uses Omron switch for accurate click capability and improved bounce especially than other products in the same segment, and the usage time is also greatly increased with lifespan of up to 5 million clicks. The underside of the mouse, in the middle, is the optical sensor Avago 3050 with a resolution of up to 3000 DPI, making it more accurate and extremely good.

Talon Blu Avago 3050 has precise control.

TALON BLU Avago 3050 also surprised many people to be able to change the appearance by removing two side panels, this change reduces the external size and is suitable for small gamers, especially Female gamers.

The Talon Blu Avago 3050 size significantly reduced after the side-by-side tower.

It eSports pays great attention to reducing the information for the game mouse and is interested in the experience of the gamers, so it has equipped TALON BLU Avago 3050 gold-plated USB plug, with the same anti-interference unit nearby.

One last point to note is the ability to customize the LED mode of TALON BLU Avago 3050, the default blue led will flash - turn off slowly, but if you do not like this mode, the gamers can customize the led light to suit your needs, by pressing the DPI and left mouse buttons at the same time when the led is on or off to keep the led

system in a fixed state.

The Avago 3050 Talon Blu mouse is suitable for professional gamers.
