Prestigious and quality brand

From time to time, Philips products have always been appreciated for quality (from household goods to beauty care products .). This brand from Holland always applies the most modern technology in its products and is very popular in Vietnam market.

Luxury design, class

Philips S1030 is simple but no less delicate and luxurious. Combining blue and black with subtle curves, the product becomes more masculine, suitable for gentlemen.

And yet, the body of the camera is very portable, easy to manipulate to help you shave easily, create a simpler style.

Aquatec plugs help to dry or wet as you wish without harming the skin

Philips has equipped the superior Aquatec S1030 head against the cuts with the skin protection system. With this product, you can safely shave dry or wet with gel and foam.

Self-sharpening cutting blade with Flex shaving head ensures clean shaving

The sharp cutting blades of the Philips S1030 have shaving heads that are smooth and smooth on your skin without scratching the skin. Flexible Flex shaving heads can freely move in three different directions in each face curve, ensuring close contact with the skin helps you to shave fast and closely even in the neck and jaw area.

100% water resistance

This is the highlight that I love in this product. With **100% water resistance**, you can comfortably shave under the faucet or while showering OK. In addition, the machine is also easily removable. You can also wash the shaver right under the tap after using it very conveniently and simply.

Use wireless continuously for 45 minutes

With wireless charging technology, Philips S1030 can **be used continuously for 45 minutes, equivalent to 15 shave times after 10 hours of charging** . As a result, you can also bring your device when traveling or working quite conveniently.
