

# Evaluating the speaker Edifier M1380: Good sound quality, high durability, reasonable price

Edifier is an unfamiliar name in the current computer speaker market, and one of Edifier's most popular 2.1 models is Edifier M1380. If you are looking for a speaker with good sound quality, high durability and reasonable price, Edifier M1380 is a bad choice.

Edifier is an unfamiliar name in the current computer speaker market, and one of Edifier's most popular 2.1 models is Edifier M1380. If you are looking for a speaker with good sound quality, high durability and reasonable price, Edifier M1380 is a bad choice. Find out more about this speaker product through the quick review below.

## Evaluate the design of the Edifier M1380 speaker

The Edifier M1380 speaker has a rather sophisticated and modern design, the sound exit is set to the right and the bass is hidden inside.

Edifier M1380 includes 1 subwoofer and 2 satellite speakers.

Music player Edifier M1380 also comes with a nice controller, including mute button (Mute) and Volume adjustment dial. In addition, the satellite speaker membrane is clothed with a luxurious silver Edifier logo, a V-shaped speaker base with a unique angular design.

A pair of compact satellite speakers are designed in a very strong V-shape.

## Evaluate the sound quality of the Edifier M1380 speaker

The Edifier M1380 includes a 12W subwoofer subwoofer and two 8W satellite speakers per channel. With a total capacity of up to 28W, it is enough to fill the space for a small room with an area of ??about 20 square meters.

Evaluation of bass, although the subwoofer has a capacity of only 12W, but because it is a sub-steam type, Edifier M1380 still shows an impressive range of bass. When the bass is at medium level, the bass sound is sufficient and neat and the background for the music is very good. However, increasing the bass to about 2 steps has felt a lot more bass, quite a good force but it seems a bit lacking in depth and a bit of encroachment into the mid range.

Bass of the speaker Edifier M1380.

In general, the bass of this 2.1 computer speaker is just enough to use, the point is that the tension is round, smooth and well controlled. With its small size and average capacity, users cannot require an expensive bass range, compared to other competitors in the price range Edifier M1380 has excelled.

The other two bands are mid and treble. Experiencing a few pieces of music we can easily see the mid-range Edifier M1380 is not too thick and sweet but tends to be neutral, natural and rustic. Although the detail of Edifier M1380 is only quite good, it still gives a mid sound that is clear and clear.

Listen to music delighted with Edifier M1380.

Edifier M1380's Treble also did not disappoint when it performed quite well with high notes, fast-paced melodies without ripple, or broken sounds like some cheaper speakers.

## The pros and cons of Edifier M1380

### Advantages:

1. Nice design, neat.
2. Integrated control, bass boost / reduction knob.
3. Pretty bass sub, bass range is tight, round, compact.
4. 2 satellite speakers are fine details, not being shy at high volume levels.
5. Play many types of music.
6. Using a 3.5mm jack should connect to various sources.

### Defect:

1. Bass is not really much and deep for Dance music, EDM.
2. Small capacity is only suitable for small rooms (20m<sup>2</sup>).

Overall, Edifier M1380 is a pair of speakers worth owning for less than VND 1,300,000. Not only to bring good sound, beautiful design that Edifier M1380 also brings satisfaction to users when owning such a quality computer speaker.
