

# Experience AI chatbots for free on the same website

Some solutions for you to use the smartest AI chatbots today, including ChatGPT, Gemini, Claude, Llama... on the same tool so you don't have to waste time switching back and forth between websites or applications. .

Some solutions for you to use the smartest AI chatbots today, including ChatGPT, Gemini, Claude, Llama. on the same tool so you don't have to waste time switching back and forth between websites or applications. . Helps you experience high-end AI chatbots, before deciding whether to spend money to buy these AI chatbot services or not.

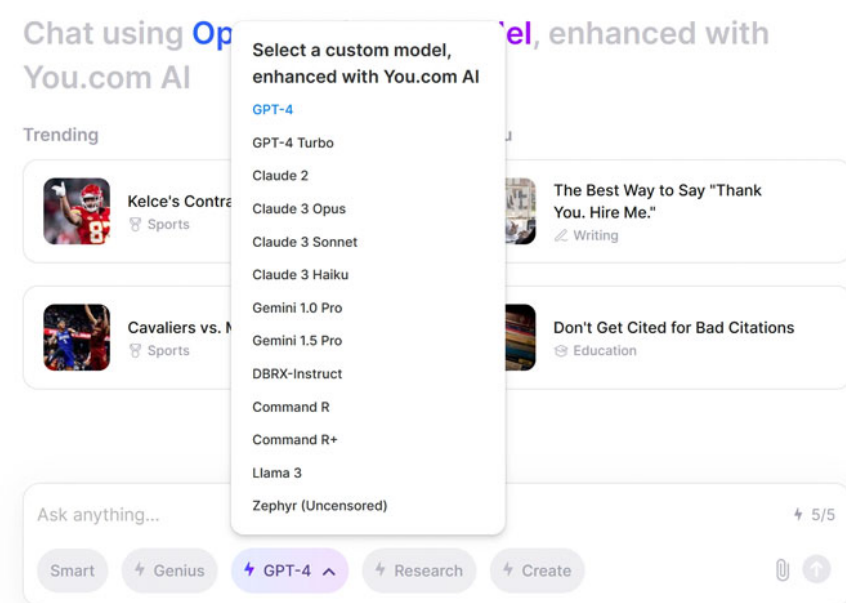

## You.com

With this website, users can use and choose different AI-integrated chatbots on the same website interface. This website provides almost all of the smartest AI chatbots today for users to experience and use.

To use this tool, visit the website following the link below, register a new account, or use your Google or Apple account to log in.

<https://you.com/>

Then, you can ask a question or request in the chat box on the website. You can choose any language model you want to use for a fee such as Gemini 1.5 Pro, GPT-4 Turbo or Llama (although currently this chatbot is not provided by Facebook to users in Vietnam). by Go to "GPT-4" in the chat box.

The website's interface is in English but users can communicate and use this chatbot in Vietnamese.

However, the free version of the website only allows users to ask 5 questions or 5 requests to use different models or all models in 1 day. In case you have finished using 5 questions, users will only be able to use You.com's default language model. If you use You.com with different major language models, you must wait another day to get the 5 free questions again, or log out and log in with a new account.

You.com provides other responses quickly and fluently, but You.com's data is only updated until May 13, 2023 and this chatbot is not connected to the internet, so questions related to the event take place. After May 13, 2023, You.com will not be able to provide answers to users.

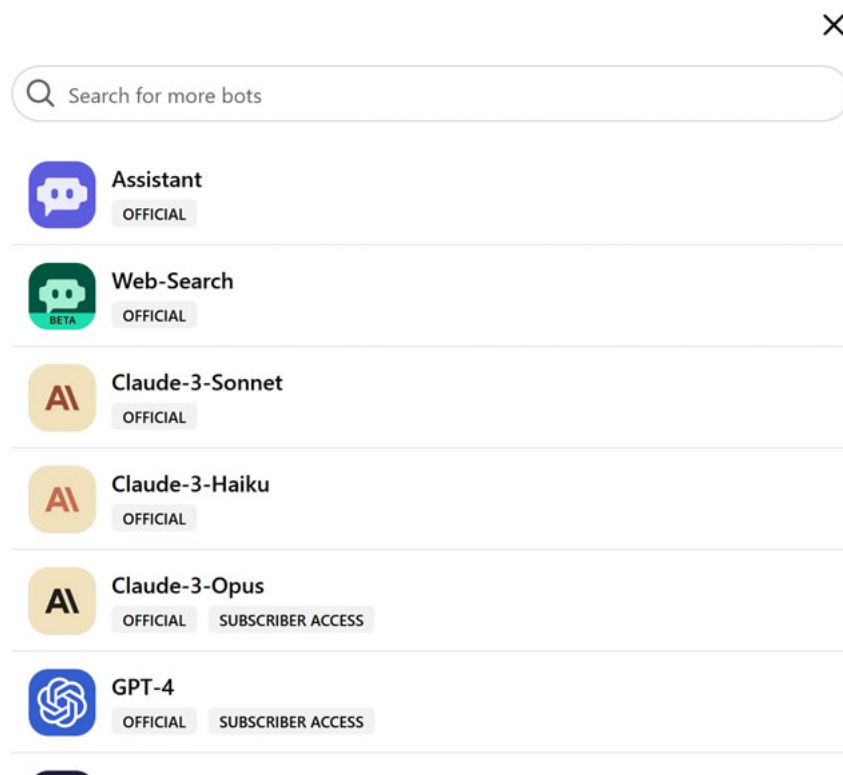

## Poe.com

Compared to You.com, Poe offers a larger variety of language models for users to choose from, but not all are free. With major language models marked "Subscriber access", users must pay to use.

The Poe tool has no limit on the number of questions. Each Poe free user will be given 3,000 credits to ask questions or request AI chatbots to perform, enough to last the user all day. After each day, this credit score will be fully restored.

To use this tool, first access the link below, and log in to the website by creating a new account or using your Google or Apple account.

<https://poe.com/login>

After logging in to the website, a dialog box appears asking users to register for Poe's service to use. You can click the "X" to close this dialog box.

After that, you can ask a question in the "Start a new chat" box, to select the major language model you want to use, press the "More" button.
