With Direct, you can remain anonymous when online on Instagram, to choose to click **Active status** -> select On / Off mode.

In the **Messages** section, the list of contacts that you have previously talked about will be listed and also a similar suggestion will appear on Instagram. To make a new conversation, click the + sign and enter the contact's name. The new chat interface will appear, quite simple and has not been equipped with features like Video Call or Call.
