

Experience Haylou LS01, Xiaomi's cheap smartwatch

Experience Haylou LS01, Please see the actual Haylou LS01 experience below to see if this smartwatch is 'as good' as the selling price.

The Haylou LS01 smartwatch is fully equipped with the most basic features of a smartwatch and is extremely cheap, cheaper than the Mi Band 4 that has "stormed" the Vietnamese technology user community recently. Haylou LS01 has a selling price in China of 99.9 yuan, equivalent to about 330,000 VND, but when returned to Vietnam it was priced to about 450,000 - 550,000 VND.

1. Xiaomi launched Haylou LS01 smartwatch, 14-day battery, priced at VND 330,000

Invite you to see the actual experience Haylou LS01 below to see if this smartwatch is 'as good' as the selling price.

Haylou LS01's only accessory is a magnet charging cable. Haylou LS01 charger, users do not need to unplug the wire, but simply place the magnet charger into the charging pin position.

Haylou LS01 has a very light weight due to being finished from plastic.

The included silicon cord is not too premium, easy to remove and replace other types of wire.

The smartwatch only has a single key around the body, used as a back key and to turn on and off the screen. However, according to the user, this key operation is quite difficult.

Haylou LS01 is equipped with a square clock screen with 1.3 inch LCD panel and 240 x 240 pixel resolution.

Users can easily change the watch face directly in the settings, no need to use a smartphone.

Haylou LS01 is equipped with many health features such as a real-time heart rate monitor, sleep monitoring, step counter and 9 different sports modes .

Haylou LS01 is a domestic version, so the interface uses only Chinese, designed quite simply, the font is not beautiful.

Another plus point of the Haylou LS01 is IP68 water and dust resistance. This smartwatch can withstand underwater for 30 minutes at a depth of 1.5m.

The battery fitted to the Haylou LS01 has a capacity of 210mah, which is larger than the Mi Band 4 (135mAh).

When increasing the screen brightness to the maximum, Haylou LS01 has a slightly darker screen than Mi Band 4. Haylou LS01 with a larger screen (compared to smartband), allowing users to easily manipulate, although not as beautiful as Mi Band 4.

With the above experience, if you intend to buy a smartwatch you will choose Haylou LS01 or Mi Band 4? For the answer, you can see more "Experience Mi Band 4, Xiaomi's health monitoring has just arrived in Vietnam, many smart features but with Vietnamese display error".
