

# Experience in choosing to buy glass ovens

In every family, an oven is an indispensable item to be able to process many delicious dishes for loved ones. In the market, the housewife is always confused when choosing, so you can refer to the article below to buy a quality glass oven right away.

On the weekends, enjoying a barbecue is extremely wonderful. Glass ovens are increasingly popular today because of their convenient features and compact, easy-to-use designs that are reasonably priced.

However, when choosing to buy a versatile oven, you need to pay attention to buying the best glass oven. The housewives can refer to some useful information from the article below to choose the right kind of oven.

## Factors to consider when choosing to buy glass ovens:

1. Glass ovens operate according to the principles based on the heat of the halogen bulb to ripen the foods. However, the halogen bulb is placed on top of the grill, so the food is cooked on one side, and the other may not be cooked. Therefore, when buying a glass oven, buyers need to pay attention, need to buy the type of grill with convection fan, help circulate hot air flow down to the bottom of the oven, thereby making better food .
2. Currently on the market there are quite a lot of different capacities of versatile grill, but you should choose the grill with a volume of 12 liters or more. And if you can grill a large chicken comfortably, you should choose an oven with a volume of 15 liters.

Halogen oven Tiger Queen MO-02MHG has a capacity of 12 liters

1. In addition, to be able to meet the needs of baking more types of food, you should choose to buy a 2-tier glass oven, so you can simultaneously bake a variety of foods, speed up the cooking. Some types of glass stoves also have tools to support food baking such as grilled skewers, grills, fish grills, grilled vegetables . separately and more specifically.
2. Many different temperature levels are also a factor to pay attention to when buying a glass oven, because you will have many different types of baked goods, so the more temperatures you have, the less you will lose. much more successful.

On the market there are many glass oven lines of many prestigious brands such as Tiger Queen, Sunhouse, Sanaky and below are the 3 best glass ovens that you should buy for your family.
