

Experience or choose to buy rickshaw to market

Find out immediately the secrets to buying trailers to multipurpose markets, dispel the worries of carrying heavy, delicately when you need to go shopping for your Tet, moms!

In this article, TipsMake.com will suggest you the best experience, know-how to choose to buy a rickshaw to go to the market, the mothers are free to shop for Tet to come.

Today, the habit of buying food in supermarkets is becoming more and more popular among young people. However, women and mothers still prefer to go to the market near the house early in the morning, while practicing sports to improve their health, choosing a variety of fresh and attractive foods.

Going to the market also has many good things but there is a huge disadvantage that women and mothers sometimes have to carry lots of heavy and bulky food themselves. Therefore, equipping the family with a multi-purpose **trailer** to help the market easily and to reduce the size, does not make the women, the mother suffer from back pain, hand fatigue.

Check out some good experiences to choose to buy a car for your family!

Experience in buying trailers

Price

The price of trailers for regular markets is quite cheap. **Only from 350,000 VND** you have bought a car of this type already. This is because shopping carts are only for food shopping, so the requirements for load, design and materials are not too complicated.

Tractors to multi-purpose market convenient to use when shopping for food.

Design

Types of shopping carts are usually made from alloy, stainless steel . or combine metal frame with plastic parts so the car is very light, **the vehicle weight is less than 2 kg** . It also has rollers to easily move between locations and move uphill, downhill .

Vehicles can **withstand loads up to 30 - 40 kg** so women, mothers can comfortably buy food for the festival, the death anniversary of the children have many children.

The height of the car is usually less than 1 meter, some models can adjust the height of the handle so it is suitable for many ages, heights, avoiding back pain because of having to bend low or tiptoe when using the car .

There are 2 popular types of market trailers available:

1. **Type with floor only** : users must equip themselves with additional baskets.
2. **Available basket type** : like a shopping basket with wheels.

If you buy a basket without a basket, you can reinforce the plastic basket yourself, but you will need to remove it when not in use to keep it handy. If you choose to buy available baskets, it is much more convenient, but the price is not too expensive, just a few tens of thousands more can buy this type already.
