Cinema has long been an indispensable spiritual food in life. The long lines of people in front of the cinema every weekend are a clear proof of the strong attraction of this art form.

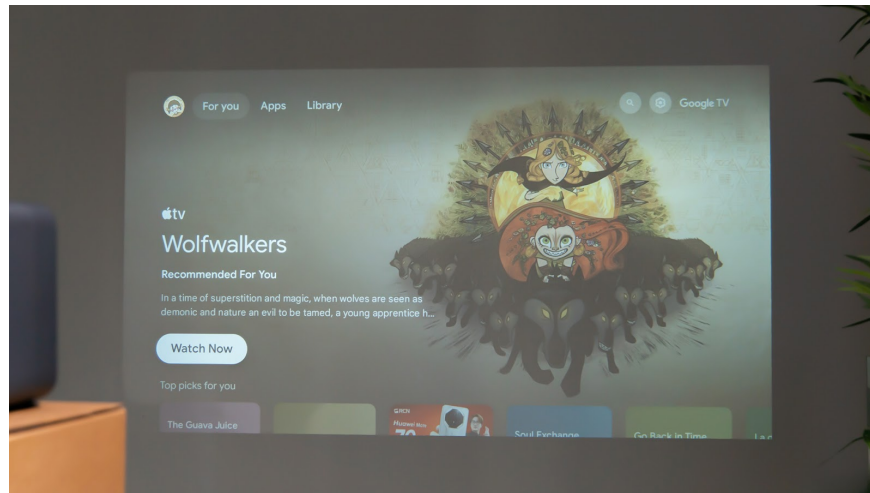

However, the cinematic experience is no longer limited to the cinema. You can completely immerse yourself in the latest blockbusters right in your own home. No need to jostle or calculate the time, "watching movies" at home brings freedom, comfort and also saves a lot of money. A private space, complete moments - all just a projector away. Understanding this, Xiaomi has brought the Xiaomi Smart Projector L1 Pro with a series of outstanding features, good display quality and a reasonable price.

## **Top-of-the-segment 400 lumens brightness, automatic calibration**

For those who are passionate about the seventh art, display quality is always the top priority. Xiaomi Smart Projector L1 Pro is the perfect answer, enough to satisfy even the most demanding audiences.

The Full HD resolution of the Xiaomi projector reproduces sharp and vivid images down to every detail. With high contrast and the ability to reproduce deep light and dark, every frame is conveyed delicately and realistically. The brightness of 400 ANSI lumens helps the device operate excellently even in complex lighting environments, providing a complete visual experience.

Xiaomi Smart Projector L1 Pro not only scores in image but also in convenience. The intelligent Auto Focus feature allows for quick focusing, combined with Auto Keystone Correction to automatically adjust the image when the projector is placed off-center, ensuring every frame is always straight and accurate.

Many families choose to project movies on the wall, but cracks, power outlets, or switches often interrupt the experience. Understanding that, Xiaomi equips the device with advanced AI algorithms. The built-in high-precision camera helps the Xiaomi Smart Projector L1 Pro skillfully avoid obstacles, automatically determining the ideal projection area, providing a perfect and seamless frame.

With the ability to project a maximum screen of up to 120 inches, the device opens up the world of high-end cinema right in your home space. From breathtaking action scenes to romantic scenes filled with emotions, all are reproduced brilliantly. Not only for entertainment, this device also provides effective support in studying and working, helping to project documents and lectures on a large screen, improving concentration and efficiency.

Sound, an often overlooked point on projectors, is carefully taken care of by Xiaomi. With built-in speakers that meet Dolby Audio standards, the Xiaomi Smart Projector L1 Pro brings a vivid and emotional sound space. You will feel every melodious music, every cautious footstep or every loud explosion in every detail, turning every experience into a memorable journey.

### **Google TV and Netflix available, satisfying all needs**

Because of its compact size, users can easily move the Xiaomi Smart Projector L1 Pro and place the device in any space in the house. The elegant, modern design with soft rounded lines makes the projector an impressive highlight, adding luxury to the living space.

Owning Google TV with an intuitive, easy-to-use interface, Xiaomi Smart Projector L1 Pro helps users quickly access their favorite content stores such as Netflix, YouTube. with a few simple steps. Just connect to the power source and the playback device, you will immediately immerse yourself in a diverse world of entertainment, from blockbuster movies to favorite shows. With voice control capabilities, this projector is especially friendly to both children and the elderly, helping to save time searching for content and bringing great relaxing moments to every family member.

Xiaomi Smart Projector L1 Pro is equipped with many connection ports such as HDMI 2.1, USB, headphone jack. to help users easily connect to playback devices such as smartphones, tablets or laptops. In addition, through Xiaomi's rich ecosystem, users can combine the projector with external speakers to enhance the experience, creating a perfect blend of sharp images and vivid sound, bringing unforgettable moments of entertainment.

Currently, Xiaomi Smart Projector L1 Pro is available at retail dealers with an official price of 8,990,000 VND. In particular, when purchasing from January 1, 2025 - January 31, 2025, customers will immediately receive a discount of 1,000,000 VND, the price is only 7,990,000 VND.

In addition, Xiaomi also has a shortened version Xiaomi Smart Projector L1 but still has all the necessary features. With a price of 4,990,000 VND with an immediate discount of 1,000,000 VND (from January 1, 2025 - January 31, 2025), this will be an attractive device for users to easily access.
