

Experience the Plantronics Bluetooth Headset ML15: Clear conversations, long wearing without pain, 6 hour battery

Plantronics ML15 Bluetooth headset is one of the most expensive earphones with a compact, rugged design for good voice support and buffalo battery life.

Stable connection quality, clear conversation and battery life are quite commendable points for the Plantronics ML15 Bluetooth headset. Plantronics products often have designs that are not too prominent but the quality of machining is really perfect with good prices and the ability to perform sound is not bad as the manufacturer's weapons to compete in the feces cheap song. The Bluetooth Plantronics ML15 headset with a reference price of VND 450,000 is a good example.

On hand and feel the Plantronics ML15 Bluetooth headset

Not scored by the sophisticated look, the simplicity itself helps the Plantronics ML15 wireless headset get a solid look and appeal to its users. Anyone who wears Plantronics ML15 will feel comfortable and satisfied, as it is equipped with a soft ear cushions plus a light weight, so the ache or fatigue will be rare.

The Plantronics ML15's looks are simple, yet elegant and classy.

If you feel uncomfortable when you have to listen to the phone in a noisy environment, this ML Bluetooth Plantronics headset will help you to be soothed by the noise reduction feature. Experiencing the reality shows that, when in public places with lots of vehicles, the Plantronics ML15 sound is more detailed, loud and clear than the normal earphones I still use. Under the basic criteria of noise filtering and conversation support, the

Plantronics ML15 wireless headset responds very well, but if Plantronics ML15 is used for dedicated music listening needs, this headset makes me miss a bit. The bass is thin and the treble sound is a bit loud.

Plantronics ML15's noise reduction feature is very good.

You won't have to worry about missing out on important calls, Plantronics ML15 wireless headphones can connect at the same time with 2 phones to help you manage your calls effectively on the go or at times convenient to use the phone. In addition, Plantronics ML15 also allows to recall the latest outgoing call by double-clicking the call receive button on the back of the headset, talking a device at a time.

Plantronics ML15 allows connecting to 2 devices at the same time.

With Bluetooth 3.0 technology you can connect almost to phones with Bluetooth connectivity. Plantronics ML15 headphones can not make you unhappy with its outstanding usage time, you can comfortably chat with friends and relatives continuously for 6 hours without worrying about being interrupted. This impressive number is sure to make young people who like to cook porridge feel excited.

Comfortable chatting for a long time.

Overall review of the Bluetooth Plantronics ML15 headset

Advantages:

1. Modern, compact design.
2. Comfortable to wear for a long time.
3. Bluetooth technology version 3.0, 10m connection range.
4. Talk time is 6 hours and standby time is up to 9 days.
5. Can connect two devices at the same time.
6. Good noise and wind filter resistance, providing the most realistic sound when talking.
7. Plantronics ML15 battery charger through micro USB jack is extremely convenient.

Defect:

1. The usage time depends on the battery capacity of the headset.
2. The ability to listen to music is not appreciated.

Interim:

It can be said that the Plantronics ML15 Bluetooth headset is one of the most expensive earphones with a compact, rugged design for the ability to support good conversation and "buffalo" battery life. If you're a person who is always busy with phone calls, often driving and not so important about entertainment music, this is a wireless headset that is worth considering.
