

Experience Xiaomi Mi Note 10, the first smartphone equipped with a 108MP main camera, priced at 13 million VND in Vietnam

Xiaomi has just introduced Mi Note 10, the first smartphone equipped with a 108MP main camera in the Vietnamese market.

Xiaomi has just introduced Mi Note 10, the first smartphone equipped with a 108MP main camera in the Vietnamese market. The device will hit shelves in Vietnam from December 16 and cost VND 13 million, becoming a competitor to Oppo Reno2 and Samsung Galaxy A80.

Xiaomi Mi Note 10 is equipped with an AMOLED screen, 6.47 inch size, Full HD + with Always On Display feature.

Machine equipped with fingerprint sensor under the screen, for fast unlocking speed of less than a second.

The frame of the device is made of metal, the front and back glass are curved into the frame, similar to the Galaxy Note10, giving a comfortable touch.

The front of the Mi Note 10 has a U-shaped notch with a 32 MP selfie camera. This is the highest resolution for selfie cameras, only after the Galaxy A80 uses a rotating camera design. The front camera of the device is also integrated with some youthful default color filters and many shooting modes such as portrait, beauty .

Xiaomi Mi Note 10 comes with 5 rear cameras. The main camera uses a 108-megapixel ISOCELL Bright HMX sensor, f / 1.7 aperture, OIS four-axis optical image stabilization for good image quality even in low light conditions. The remaining 4 cameras include a 117 degree 20 MP ultra wide angle camera, 5x 5 MP telephoto lens, 2x 12 MP telephoto lens and 2 MP macro camera.

Mi Note 10 is also equipped with two flash lights with two different colors.

Photos taken with 108 MP mode have a resolution of 12,032x9,024 pixels, about 11 MB in size, when printed with sizes of about 4m.

Xiaomi Mi Note 10 is sold in Vietnam with a configuration of Snapdragon 730G chip, 6GB RAM, 128 GB internal memory. The RAM capacity of Note 10 is worse than that of Oppo Reno2 and Samsung Galaxy A80.

The Mi Note 10 comes pre-installed with Android 9 and the new MIUI 11 interface.

Mic port and an infrared port are located on the top edge of the device, allowing users to control home appliances such as TVs, fans .

Mi Note 10 is equipped with a battery capacity of 5,260 mAh, built-in quick charge 30 W to fully charge the device 100% battery in just 65 minutes. This is the fastest charging speed in its class.

1. Launch Nokia 2.3, 4000 mAh battery, dual camera, Helio A22, 2GB RAM, price 2.6 million
2. Experience micro phone 2 sim 2 wave, connect to smartphones
3. Realme 5s officially launched, 5000mAh battery, 4 48MP rear camera, starting price of 3.2 million
