

## Extremely funny sunshine effects of netizens

The heat of up to 39 degrees in the North is an endless source of inspiration for institutional photos and clips, and a common theme for all netizens these days.

In recent days, some areas such as Hanoi and Northern provinces have hot weather with popular high temperature of 39-41 degrees. Some places with high heat such as Hanoi 41 degrees, Tay Bac Bo and Thanh Hoa - Thua Thien Hue area will have hot sun of 37-40 degrees. This heat wave in Hanoi capital has broken the record in the past 40 years, the historic heat level has just stopped at 40.3 degrees at the end of May 5/2015.

With this heat, it makes everyone feel uncomfortable and uncomfortable in people making people not dare to go out. At this point, just surfing a circle on social networking sites we can easily read the status lines, illustrations of young people complaining about this hot weather.

Hot sun makes everyone feel uncomfortable, students struggle to find every way to "survive" through the fire pan season. The night temperature is also not much more pleasant, causing many people to lose sleep because of the uncomfortable feeling of heat. Insomnia, Facebook appears "night owls" silently humorous photos about the hot weather topic up to 40 degrees C to help dispel the heat of summer.

The weather is hot, only to call heaven but know what to do now.

"I love you to go home, you have this air conditioner, turn it on, turn it on, then turn it on." Summer love is very simple, it is okay if only your house has air conditioning, no need at all.

The hot "Judge" film has also become a topic for "gods" to make photos to relieve the heat. "Hard people stay" only because it is too hot.

In this weather, most people just describe it with a HOT word!

Having gone through the sunny days we will love more rainy days !!!

Trời mưa , than mưa buồn

Hôm nay nắng 43 độ

Some tips for dealing with hot sun.

Mấy hôm nay nắng quá, khó chịu thật. Ad chia sẻ cho cả nhà mấy mẹo vật để đề phòng trong những ngày nắng nhé

1, Mồ hôi như tắm, làm sao giờ? :(

A. Sự đổ mồ hôi chính là cách làm mát cho cơ thể trong những ngày hè nóng bức. Sau khi vận động nên nghỉ ngơi một thời gian nhất định thì lượng mồ hôi tự nhiên sẽ giảm.

B. Một tuần nên tắm 1 lần với nước lá bạc hà được đun sôi; đồng thời cần tăng cường dinh dưỡng, bổ sung muối và một số loại rau xanh, trái cây, súp. Nếu cần thiết có thể uống một số loại nước muối nhạt hay soda muối.

C. Tắm nước ấm sau khi ráo mồ hôi.

2, Mồ hôi chân, eo ôi >"<

A. Không nên mang giày quá chật.

B. Tránh đi tất nylon để ngăn chặn sự phát triển của nấm mốc.

C. Không nên rửa chân quá nhiều lần mỗi ngày và phải lau khô chân sau khi rửa chân.

D. Thường xuyên thay giày rất quan trọng, không nên đi một đôi giày trong một thời gian dài.

3, Thường xuyên cảm thấy mệt mỏi =,=

A. Uống nước ngay cả khi không thấy khát.

B. Thời tiết nóng dễ gây ra các triệu chứng như đau đầu nhẹ, chóng mặt, tê bức bán thân, khi bị các triệu chứng này không nên cho rằng nguyên nhân là do ngủ không ngon giấc hay làm việc nhiều, mà nên đi khám bác sỹ để được tư vấn kịp thời.

Love has no errors, errors in the air conditioner. The sharing line of the guy was abandoned by his lover because there was no air conditioner that attracted the attention of the netizens. Many funny people comment that love is not as important as the air conditioner.
