With 5 tips below, you will have an impressive face on Halloween night without professional makeup skills, without spending too much time and effort.

Any girl, knowing or not knowing makeup can do it easily.

1. Vampire kiss

With just a few simple steps you already have lips full of ghosts and glamor. First, you play with a deep red lipstick, draw the brush around the black border, and then fade into your lips as you have completed the makeup step to get the vampire's lips.

2. Ghost-style makeup

To make your lips stand out, choose a bright foundation to make your face as white as possible. This outstanding effect plays an important role in the "transformation" into your scary witch. You can test the image of the goose bumps of the white-faced ghosts and hair in the horror movies.

3. Gothic style

Black nail polish, black lipstick on the face of white chalk, a black outfit, black leather boots or black boots, inlaid nails and cross are the styles of rock idols that are thousands of fans. The tomb followed. This is the style that "beauty can make us afraid". Carnival on Halloween night is a good opportunity for you to show rebellion, attracting people's attention at first sight through Gothic style.

4. Cat eye makeup

Just a pair of sharp eyes, you can scare other people on Halloween night. High-slanted eyes, black chalk on the folds, white eyeshadow, you have a mysterious, wild cat's eyes.
