

# Eyes round with 13 displays showing the pinnacle of electronic players

Playing electronic bins is very difficult, you have to buy slots and if you don't play well, it only takes less than 5 minutes to get game over. Some gamers can reach the upper class with this game. Don't believe it, let's see the high-performance displays of the electronic boxers below.

Playing electronic bins is very difficult, you have to buy slots and if you don't play well, it only takes less than 5 minutes to get game over. Of course, to continue playing, you have to buy a slot. Currently, in Vietnam, electronic box machines only appear in some big shopping centers. But in some places, especially Japan, playing electronic games is still very popular. Some players are not only good at this difficult game, but even have a super class. Don't believe it, let's see the high-performance displays of the electronic boxers below.

1. Think superman has 6 hands to play this dance, it turns out that normal people can also jump.

2. CR7 sometimes also have to give in to the guy who is this virtual island island.
