

# Facebook added a mode for capturing font selfies, Boomerang ... on Messenger apps

Facebook Messenger feature is having a big update.

Facebook Messenger feature is having a big update. Previously, the photo capture feature on this chat application only allows for normal photos but with new updates, users will have more advanced options such as taking photos of fonts, shooting Boomerang or adding AR effects. Apply for sticker.

Font deletion feature only works when users take a photo Selfie.

Boomerang is a mode that captures 5 pictures at once in 1 second, then automatically creates a short video with 4 seconds of continuous repeating.

Starting today, Facebook will release new Messenger features to users worldwide. It seems, iOS users will receive new updates first, if you have not received these new features of Messenger, please wait patiently for more.
