The trend of using portable speakers is becoming more and more popular and Feiyang is one of the names that are recently noticed with the line of suitcase speakers pulling Feiyang 6814L . This portable speaker can be described briefly in three sentences: 3-inch bass speaker, multi-connection, bringing the sound of 'excursions' across the road.

Feiyang 's exterior design is 6814L

The Feiyang 6814L loudspeaker is probably the most powerful and "muscular" sound speaker I've ever used. Our protagonist is 56 x 35 x 30 cm in size and weighs about 13 kg, assuming this size is 'compact' although some people find it relatively and somewhat heavyweight.

Close to Feiyang karaoke speakers 6814L.

Feiyang 6814L speakers with a mysterious black coat with strong lines look very solid. The speaker screen is also covered by a high-class noise-resistant alloy from the outside. Although not very convenient to carry, the manufacturers also tried to design Feiyang 6814L like a hand-drawn travel suitcase and 2 smooth wheels that are firmly attached to the speaker base for easy travel. In general, if not too strict about weight, Feiyang 6814L is a large portable portable karaoke speaker quite handy.

Feiyang 6814L has a 3-inch, multi-connected bass speaker

The Feiyang 6814L portable speaker has the ability to play music of a 3-inch speaker (ie 14.6-inch bass speaker), which has shown a suitcase sounding powerful. It is true that the larger the speaker, the more often the sound quality will increase in size, with its size specifications, candy speakers pull Feiyang 6814L to meet even noisy areas such as fairs and documents. Outdoor technology, . surely people will "stand still" whenever Feiyang sounds 6814L.
