2. **Instructions for setting up Live Stream Video feature on Facebook**

However, some people get errors when they go to the server, go to the dialog box **saying "Choose the location where you want to broadcast live video broadcast"** press the **Next** button. Some computers fix by clicking the **"x" icon** in the address bar to unblock pop-ups. But some do not have an "x", making the live Stream video stuck at this step. So how to handle?

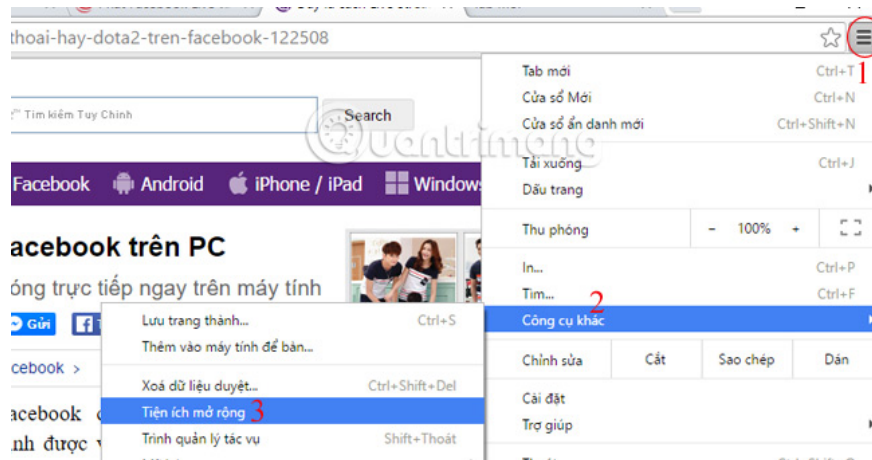

In this article, Network Administrator will guide you step by step to fix pop-up blocking error when playing live Stream video Facebook from your computer on Chrome or Coc Coc browser.

Step 1:

If your computer is installing security control utilities like: Kaspersky, Safe Browsing or Adblock Plus please turn them off.

At the interface of the Chrome browser, click on **the 3 dash icon** in the top right corner, select **Other tools** and select **Extensions** .

Step 2:

Find extensions to control security, remove traces to disable them.

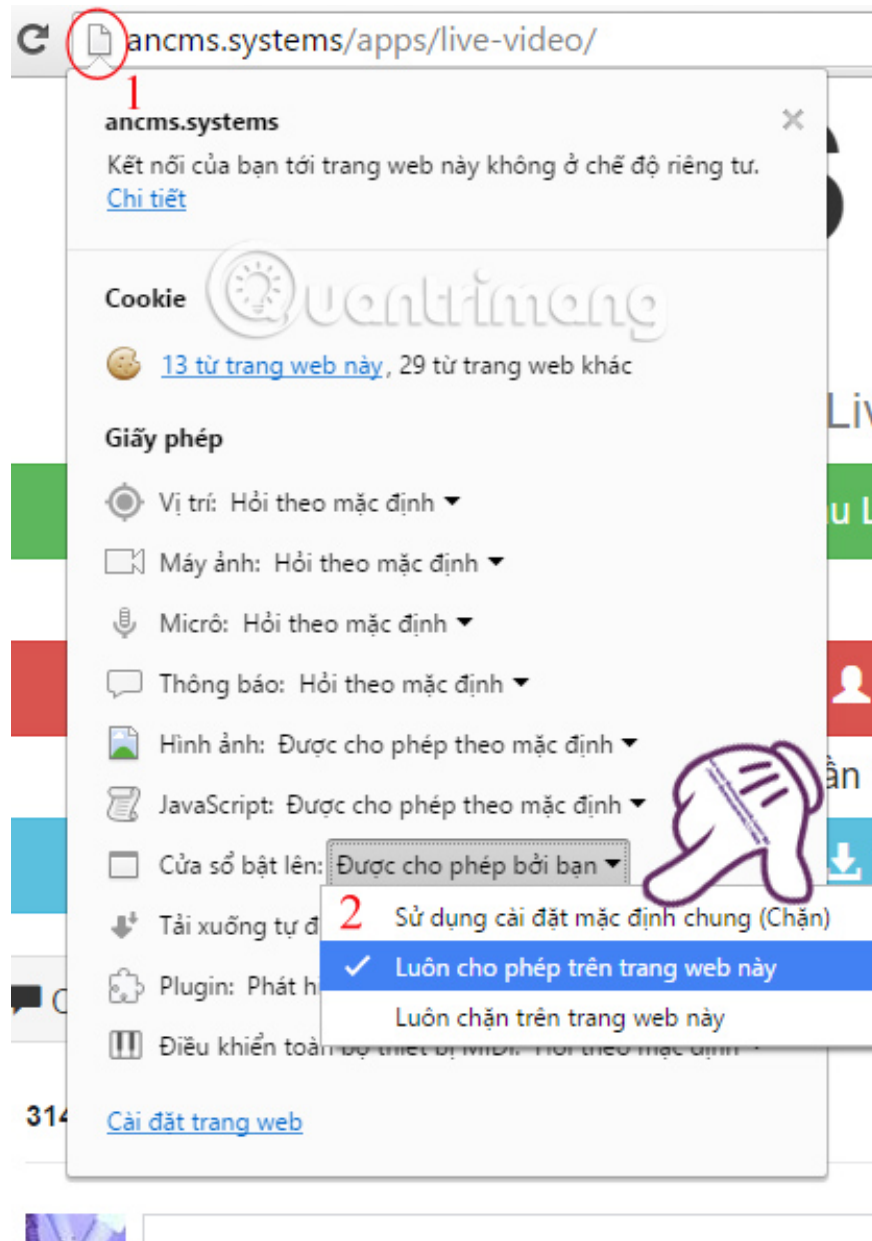

Note, if your computer does not install security utilities, you can skip this step.

Step 3:

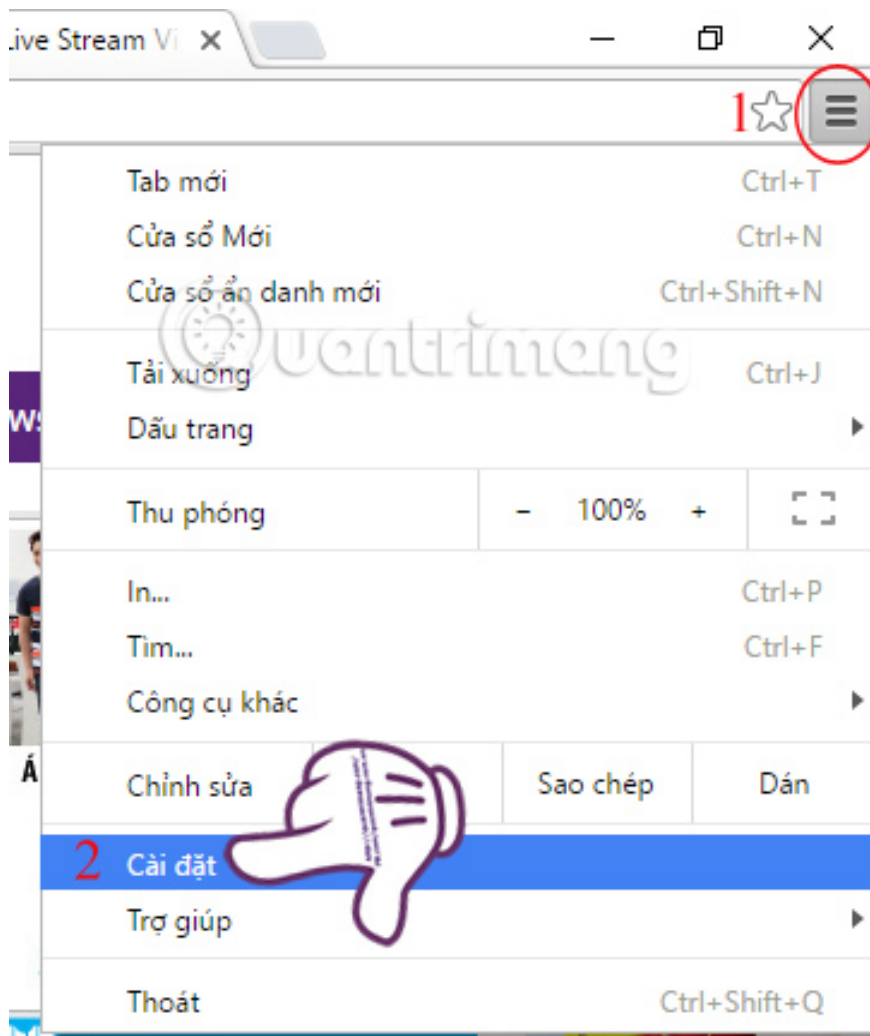

After turning off these security utilities, go back to the AnCMS Systems page. Here, you **right-click the address bar icon** . Then select the **Pop-up window: Allowed by you** , select **Always allow on this site** .

Note, press F5 to set the effect on the page.

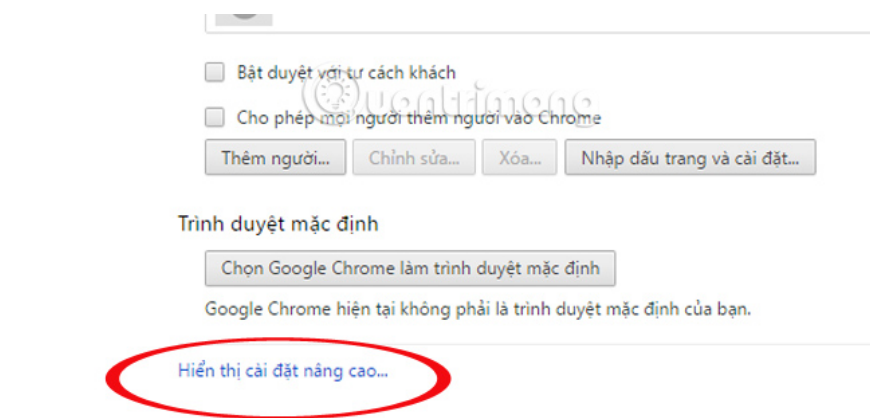

Step 4:

To manage the pop-up to the fullest, go to **Settings** on Chrome browser.

Step 5:

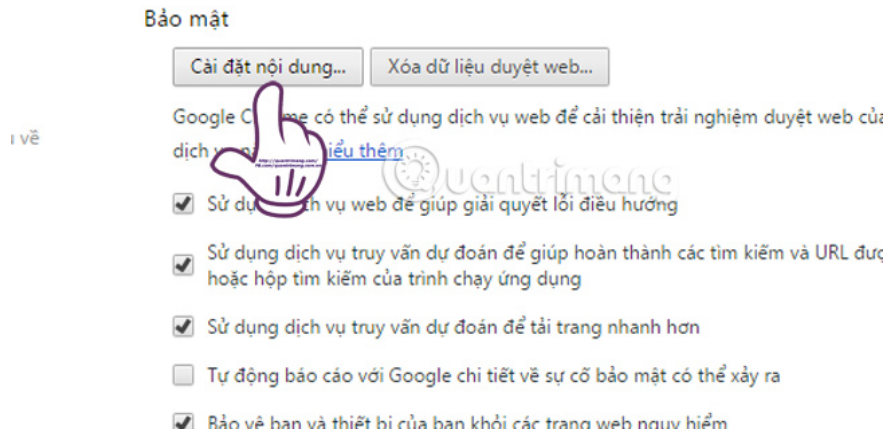

Scroll down and select the **Show advanced settings section**.

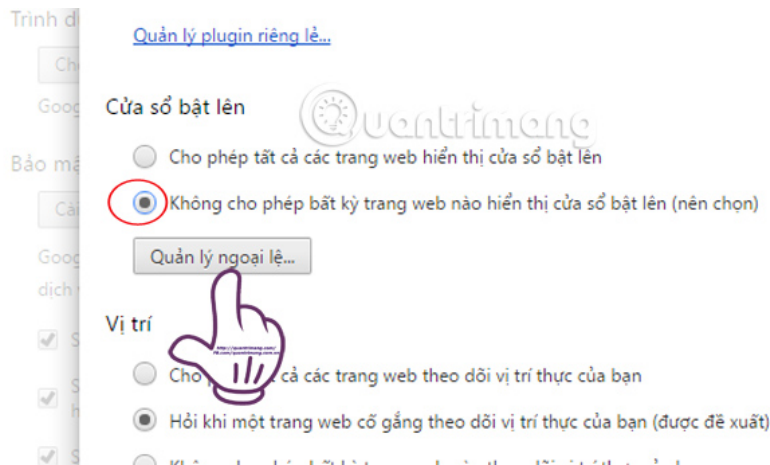

Trong đó, tính năng Live Stream đã nhận được nhiều đánh giá tích cực khi

Step 6:

In the **Security** section, select **Content settings** .

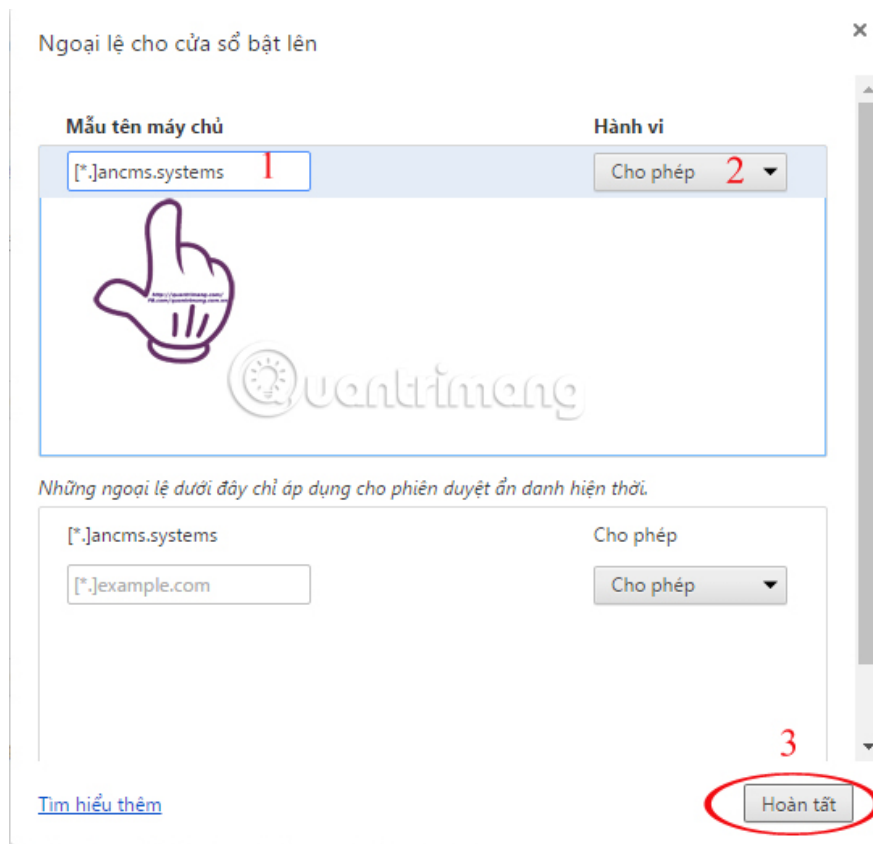

In the **Pop-up window** , check the **Do not allow any site to display pop-up window (should be selected)** and then click **Manage exceptions** .

Step 7:

In the **Server name form** box, enter the line **[*.] Ancms.systems** , select **Allow** and click **Finish** to save the setting.

This will set the exception to not block pop-ups with the Facebook Live playback window, but will still block other pop-ups. So, you can completely stream Facebook videos on your computer to your friends, without blocking pop-ups.
