

# Fix error Unikey does not show icon on Taskbar

During the process of working with Unikey, you will encounter the Unikey icon suddenly disappearing. The software is still running, we can still do the operations but the Unikey icon dives.

Currently, Unikey is considered the most popular Vietnamese typing software. We can use tools to serve in writing content, or post on social networking sites. Especially for those who do office work, they have to deal with large volumes of text, Unikey plays an important role.

1. **Fix the error Unikey can't type Vietnamese**
2. **Switch font code with Unikey**

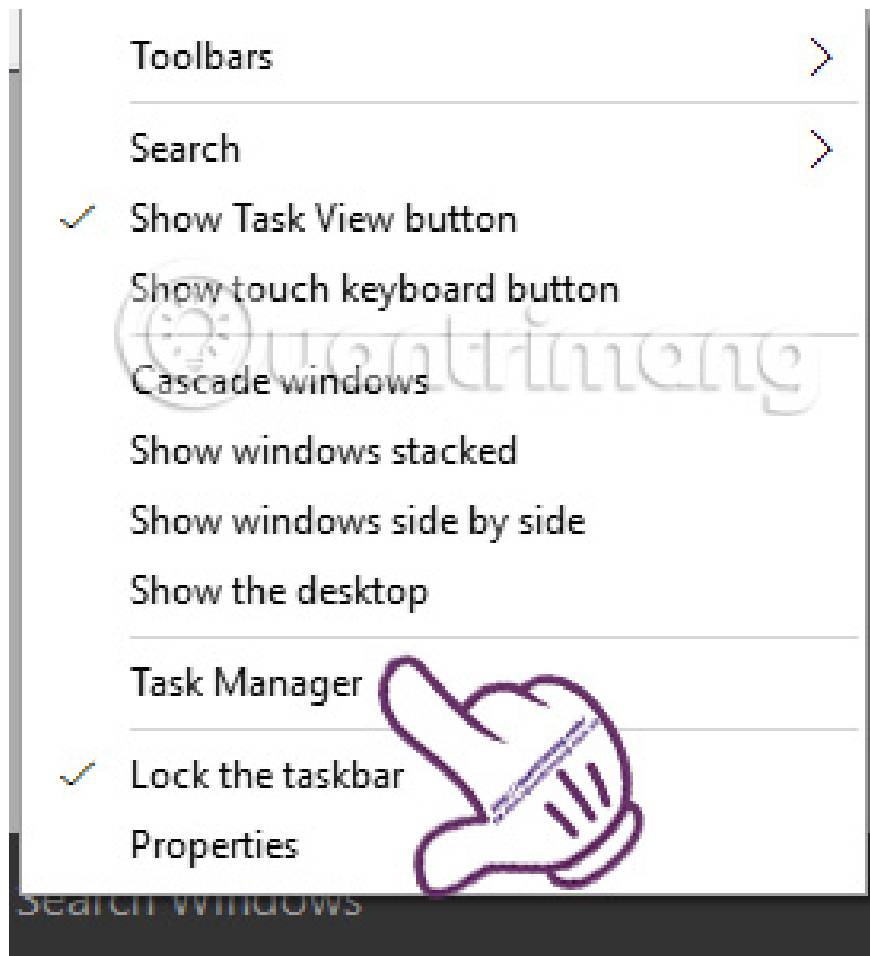

During the course of work, suddenly the Unikey icon disappeared completely in the Taskbar. Although we can still type Vietnamese, perform operations such as switching English Vietnamese, but the Unikey icon does not feel any better. This will make it difficult for anyone to work continuously with the program. Therefore, before you calculate the software reinstallation, try the fix that the Network Administrator instructed in the article below.

1. Download Unikey software for free

## Restore the icon Unikey disappears

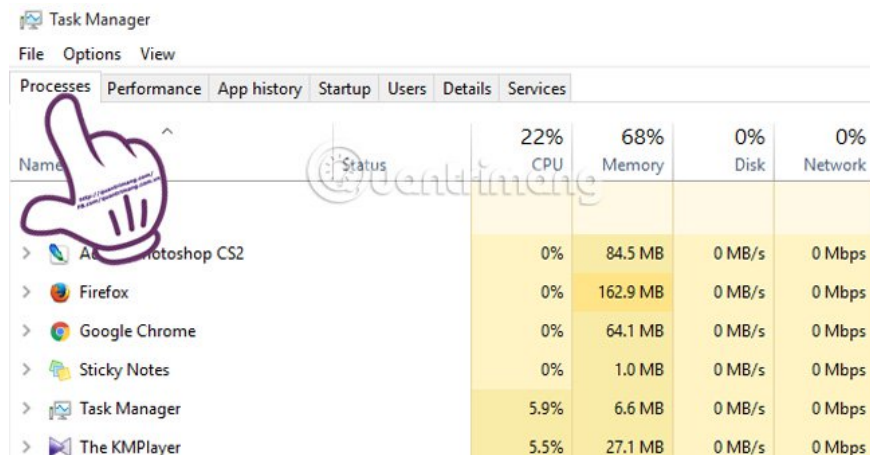

### Step 1:

In the Windows search bar on your computer, right-click and select **Task Manager** . You can also press **Ctrl + Alt + Delete** or **Ctrl + Shift + Esc** to open Task Manager.

## Step 2:

Task Manager interface appears. We select the **Processes** tab.

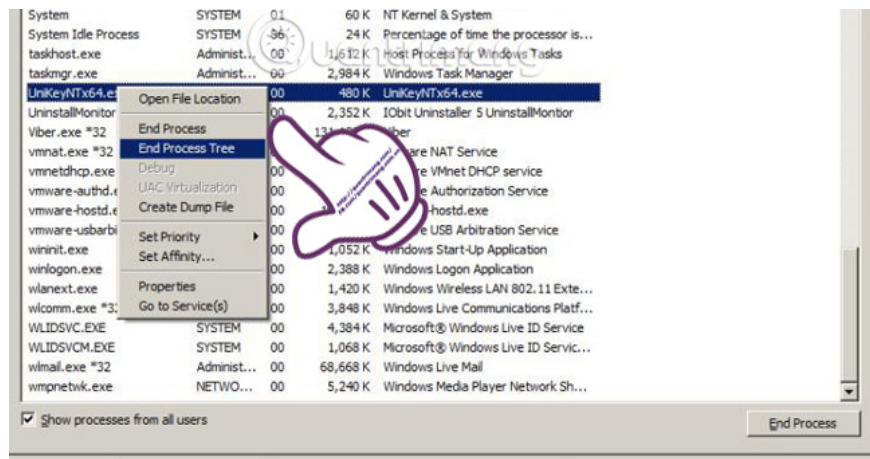

## Step 3:

Here, scroll down and search for **UnikeyNT.exe** . Then right click on the file and select **End Task** .

With Win 7 or below, you can do the same to right-click the file and select **End Process** or **End Process Tree** to close the program.

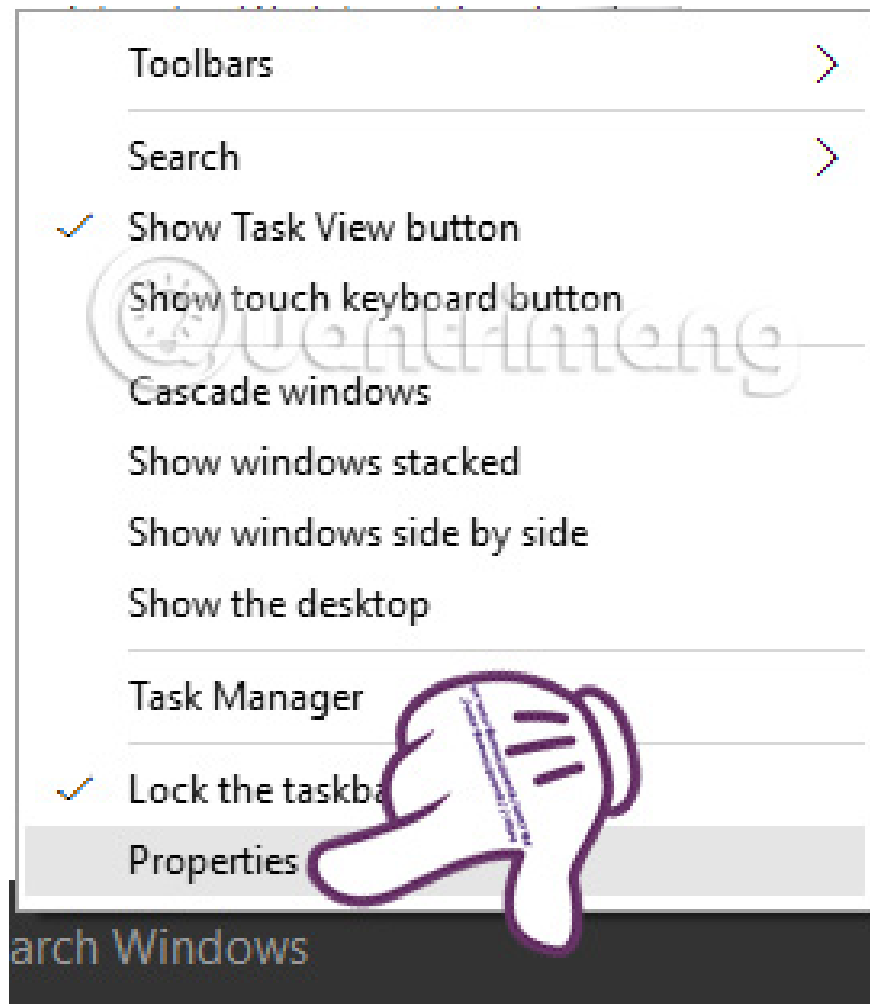

#### Step 4:

Finally, restart Unikey to appear on the Taskbar icon.

## How to appear Unikey icon in Tray icon

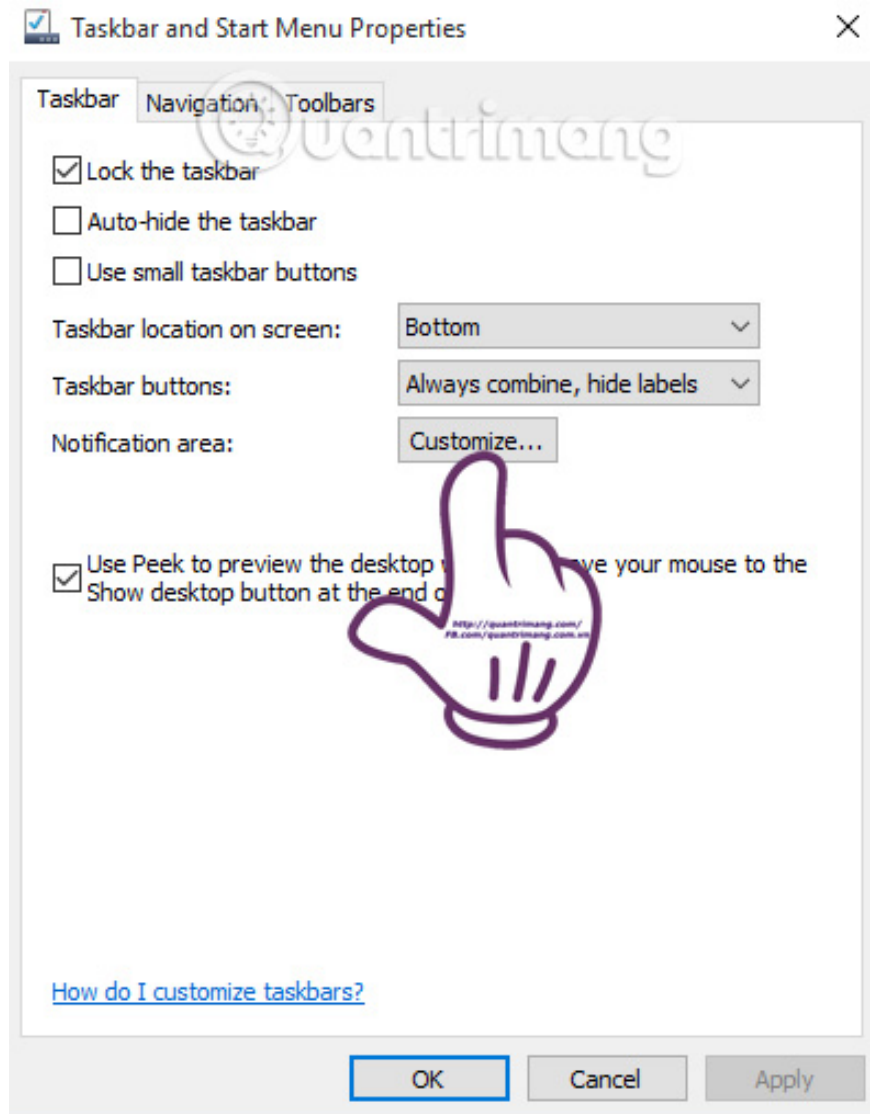

#### Step 1:

Right-click the Windows search bar, select **Properties** .

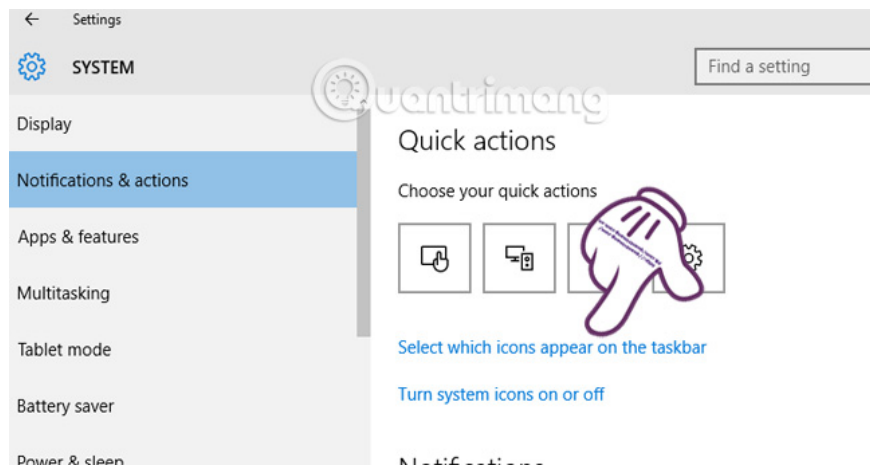

**Step 2:**

Appears the **Taskbar and Start Menu Properties** window, left-click on **Customize** .

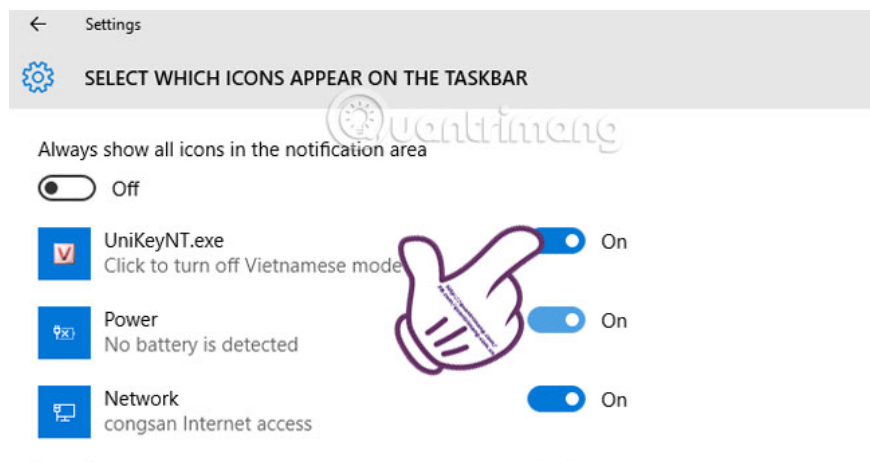

### Step 3:

The Settings interface appears and you are at the **Notifications & actions** section . Select **Select which icons appear on the taskbar** .

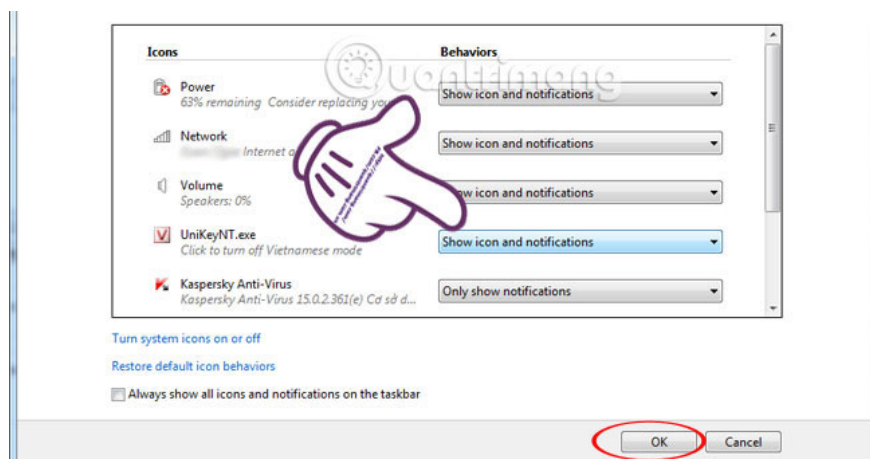

#### Step 4:

Here you go to **Unikey** and turn on **On** mode by swiping the horizontal bar to the right. So the Unikey icon appears under the system tray.

For Windows 7 or later operating systems, go to **Unikey** and click on the down arrow and select **Show icon and notifications**. Finally select **OK** to save.

Above, we have helped you appear Unikey icon on the Taskbar and attach the program icon on the system tray.
