

Flappy Bird's game 'eat by'

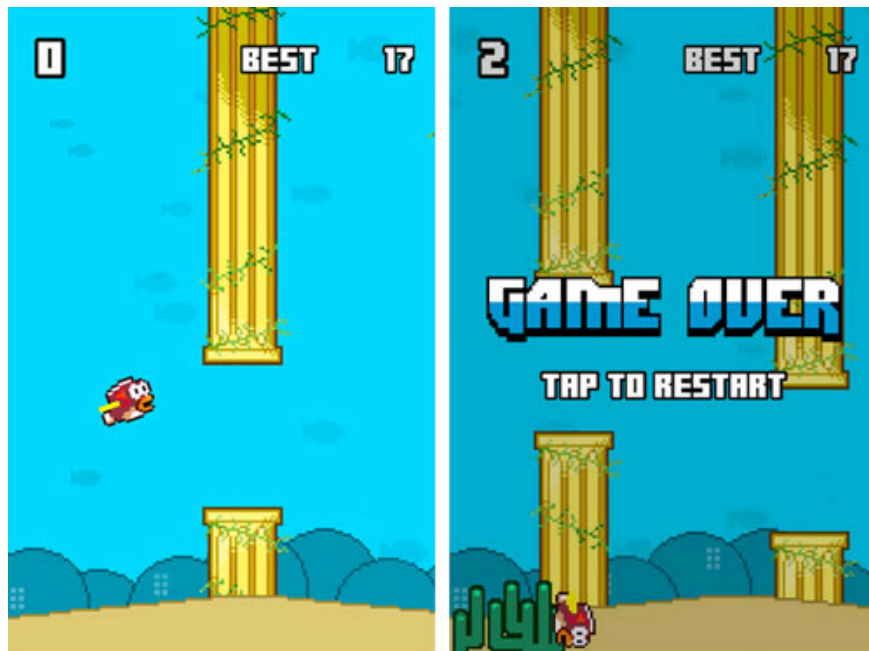

Before the popularity of Flappy Bird game, now on both the App Store (iOS) and Google Play (Android), there are games with a similar style of Flappy Bird. In particular, when Flappy Bird has been removed, these games have a very high number of downloaders.

Before the popularity of the Flappy Bird game, now on both the App Store (iOS) and Google Play (Android) market, there are some "naive" Flappy Bird games. In particular, when Flappy Bird has been removed, these games have a very high number of downloaders.

The same point through some games with very similar gameplay style to **Flappy Bird** and currently being downloaded by many people recently.

1. Splashy Fish

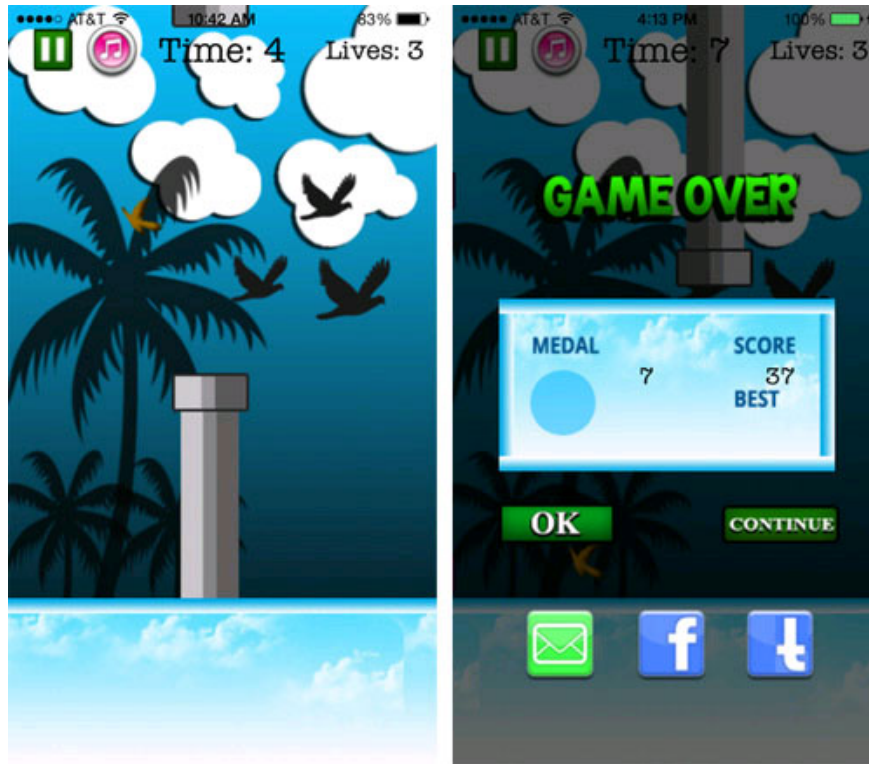

Although it was just released on October 10 (the *same time as Flappy Bird*), Splashy Fish now stands at No. 1 in the App Store (*iOS*) app store in the free app category.

The play style of Splashy Fish is very similar to Flappy Bird when the player has to control a red bird (*big beak - like a flying fish*) by touching on the screen to pass the tubes, with each tube being a recording point. Yes and players will have to play again from the beginning if they commit any errors.

2. Fly Birde

Launched on January 30 and currently ranked No. 2 in the Free App category in the App Store. Fly Birde also took " *inspiration* " to play Flappy Bird but the play was judged to be much softer.

Specifically, the player can control a small bird flying through water pipes by touching on the screen. However, the distance between the water pipes in Fly Birde is very far apart, so it is easy to achieve a high score when playing this game.

3. Ironpants

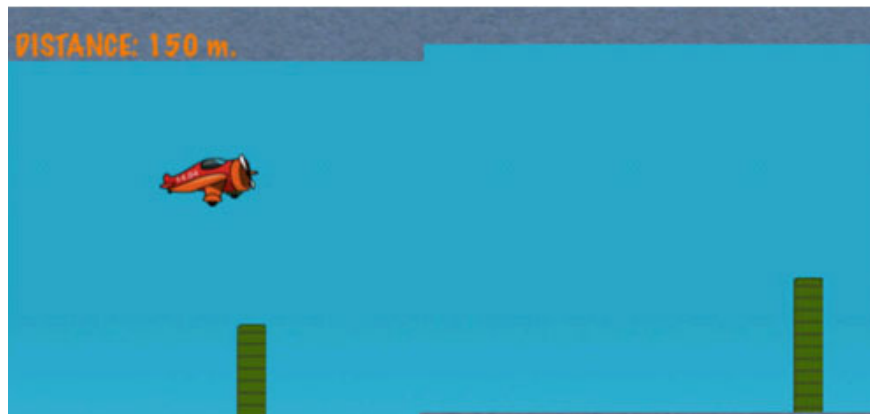

Launched on October 10 and Ironpants is currently ranked 3rd on the App Store in the free app category. Ironpants are also inspired to play like Flappy Bird but the difficulty of this game is very high.

Specifically, the player must control a superhero (*by holding and touching on the touch screen*) to control the character to cross the boxes. If you just touch any item on the road, you will have to play again from the beginning.

4. Flappy Plane

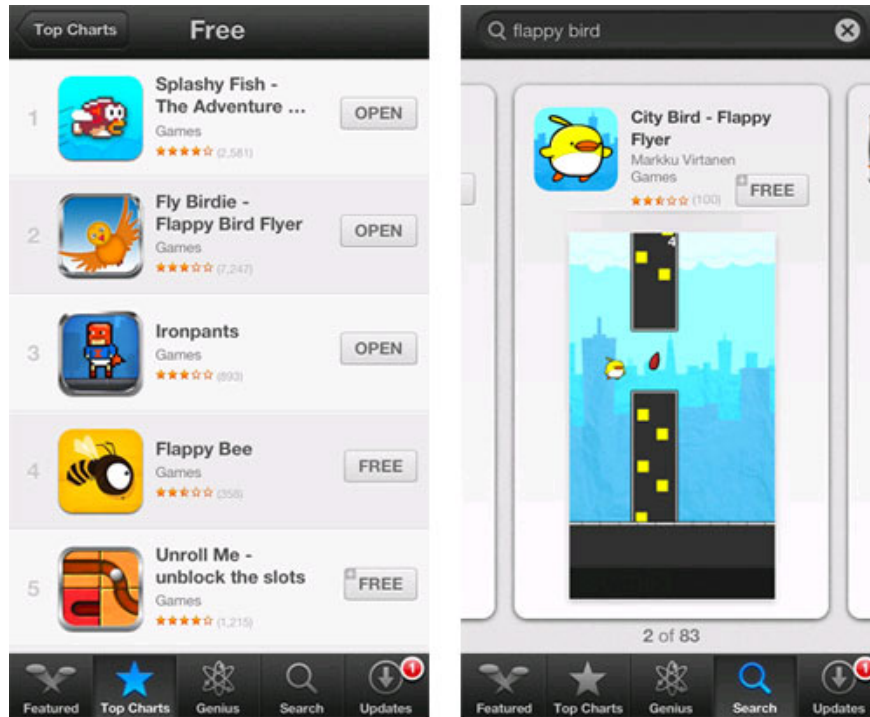

Launched on January 30 and currently being downloaded by many players because the difficulty of this game is very light.

The player's task is to control only one aircraft (*also by touching on the touch screen*) and pass the pillars on the way. However, these columns are far from each other so players are very easy to get high marks.

Currently, according to the observation of PV Thanh Nien Online, only users need to type the words Flappy Bird into the search box of both the App Store (*iOS*) and Google Play (*Android*) market will get the results returned.

About is a lot of "naive" style games like Flappy Bird.

Many games with the same style as Flappy Bird are currently ranked high in the free app rankings at the App Store.

Flappy Bird was removed from the App Store (iOS) and Google Play (Android) also unknowingly made the attraction of other popular "follow-up" games of Flappy Bird. Because, those who have not downloaded Flappy Bird but want to experience Flappy Bird game must use a game of another company.
