

Flappy Royale - How to play Flappy Bird in Battle Royale style

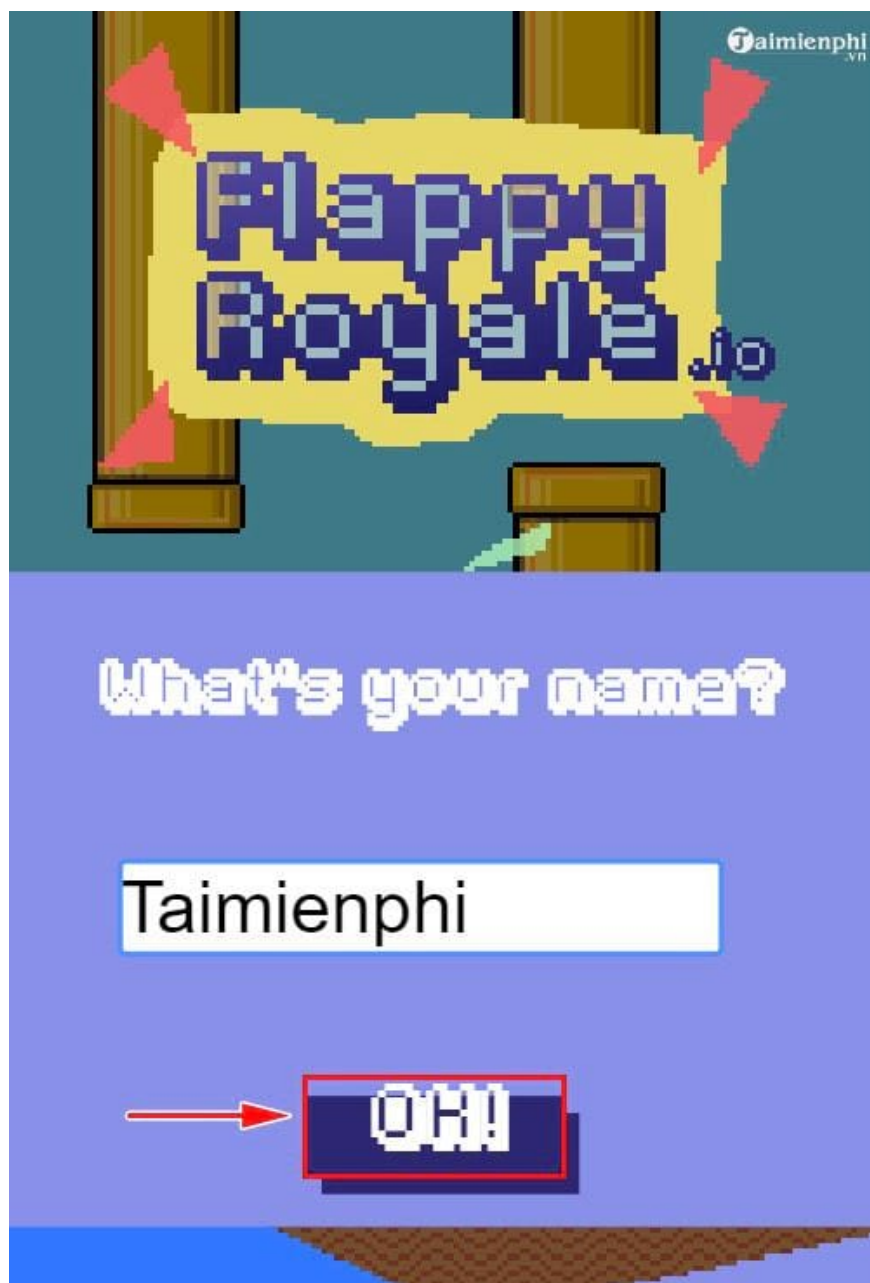

Flappy Bird was a hit with its simple yet challenging gameplay. Now, the Battle Royale version takes the game to the next level: you not only have to overcome obstacles but also compete with dozens of other players.

Your mission is to control the bird through the challenging maze of pipes and survive as long as possible. Can you become the last one standing?

How to play Flappy Bird in Battle Royale style

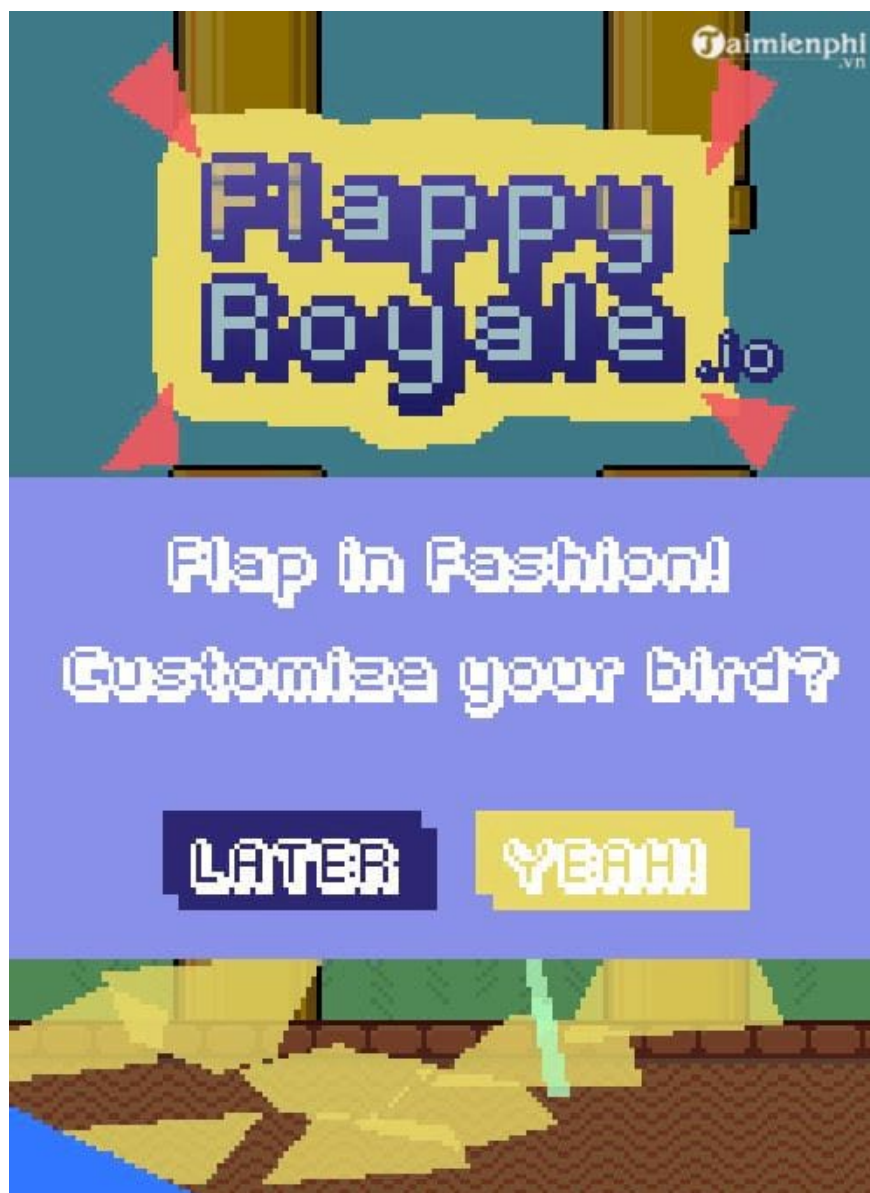

Step 1: Access the **Flappy Royale Demo** link and join right on the browser

Step 2: Name your character and click **OK** .

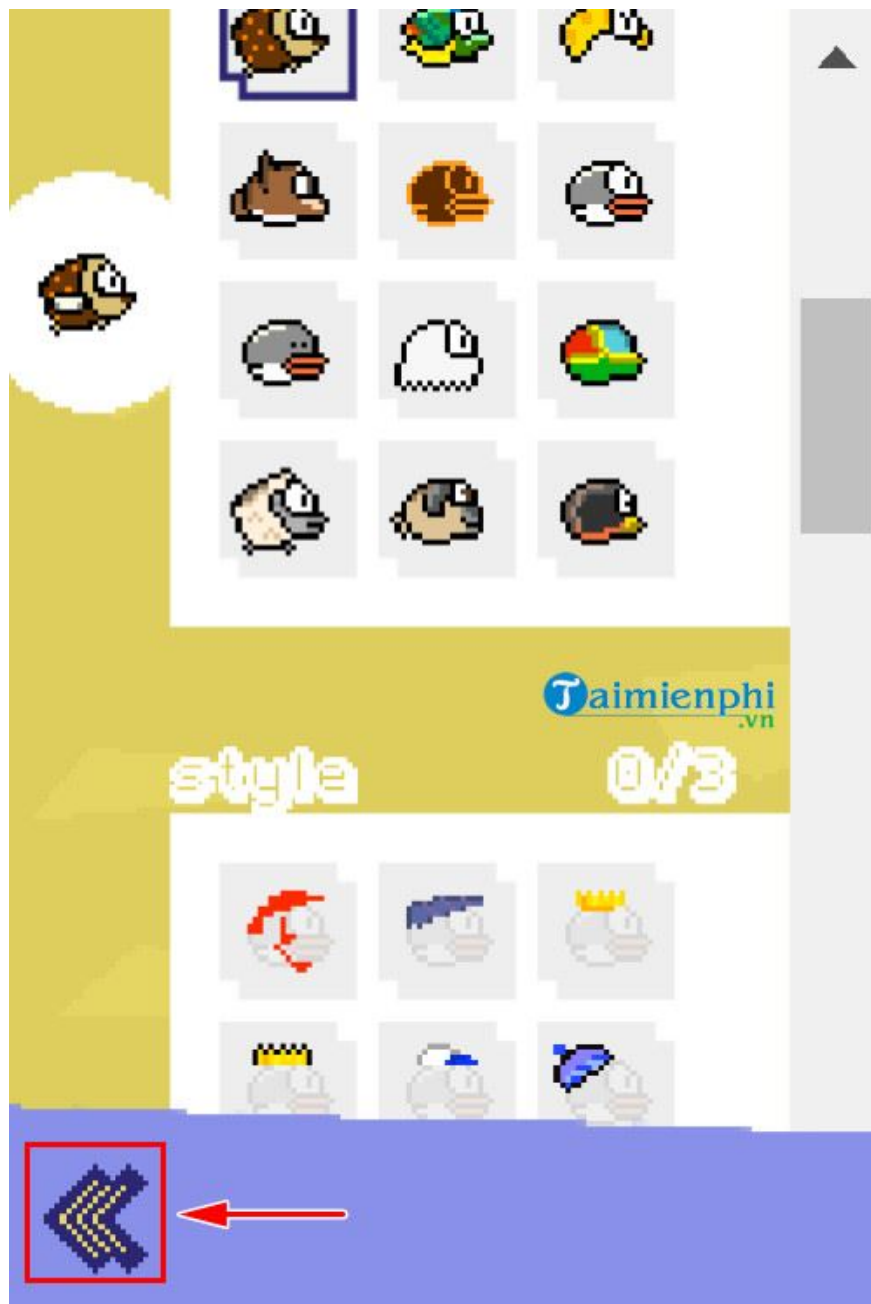

Step 3: At the start, the game will ask you if you want to customize your bird's appearance.

Select "**Yeah**" to enter the skin change, or click "**Later**" if you want to skip and play right away.

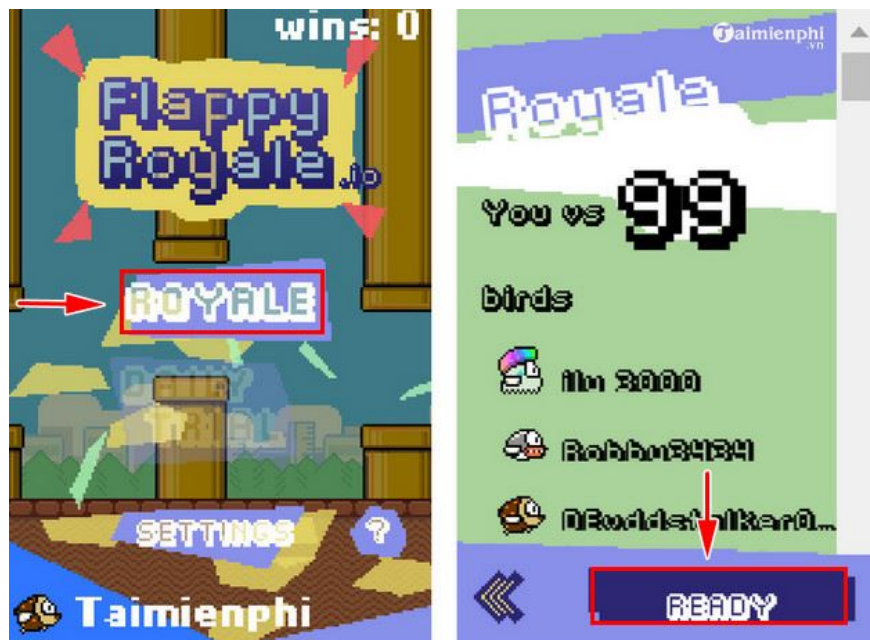

You can customize your bird's appearance by choosing hats, caps, masks, glasses and many other accessories.

Once done, tap the **back arrow** icon to save changes and continue the game.

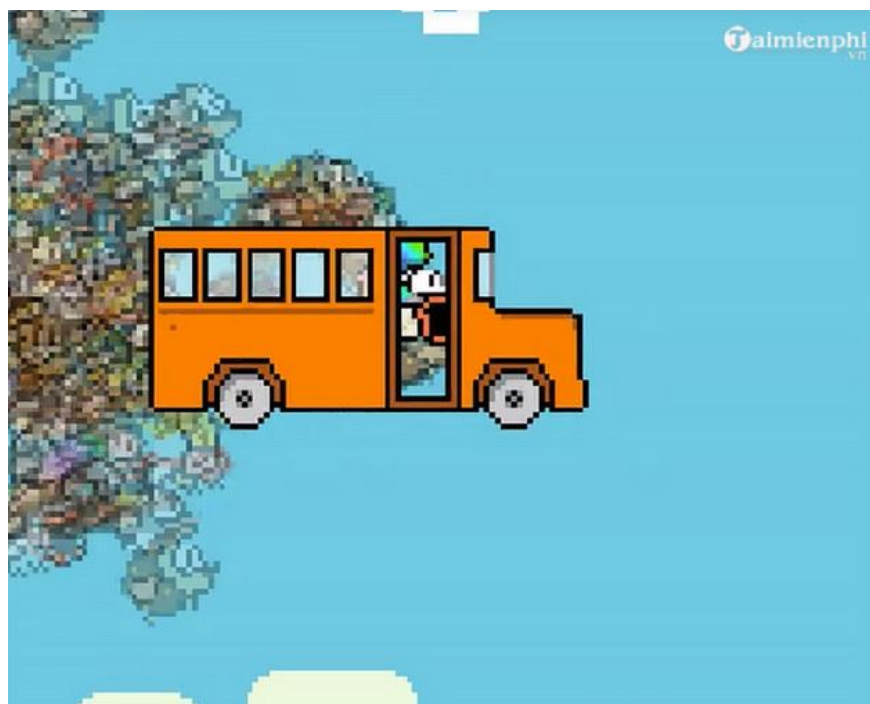

Step 4: In the main menu, select **Royale** , then press **Ready** to start.

You can customize your bird's appearance before entering the battle.

Each game begins when all players are dropped off from a bus.

Like Flappy Bird, you tap the screen (or click if playing on PC) to help Flappy fly, trying to overcome obstacles and survive as long as possible.

Unlike the original version, in Flappy Royale you are not alone. Every time you fail, you will fall with a series of other Flappys.

So you know how to play Flappy Bird in Battle Royale style, a challenging and interesting version. Wish you control the bird skillfully, survive the longest and win.

PUBG Mobile is also a Battle Royale game on mobile phones. As soon as it was launched, gamers could **play PUBG Mobile on computers using NoxPlayer** , bringing a completely new and interesting experience no less than on Mobile.
