

# Flickr, extension helps you get a beautiful and unique picture every time you open a new Tab on Chrome

Flickr Chrome Extension, an extension that helps you display a famous photo from Flickr social network every time you open a new tab.

Flickr Chrome Extension, an extension that helps you display a famous photo from Flickr social network every time you open a new tab. With this extension, instead of facing the new tabbed default interface in Chrome browser, you will have a completely new interface.

## Feature of Flickr:

1. When opening a new window, famous photos of professional photographers on Flickr Photos will be displayed instead of the tedious default interface.
2. Click on the photo or the share name to see information on Flickr.
3. The viewed image will be displayed as a slideshow when using scrolling.

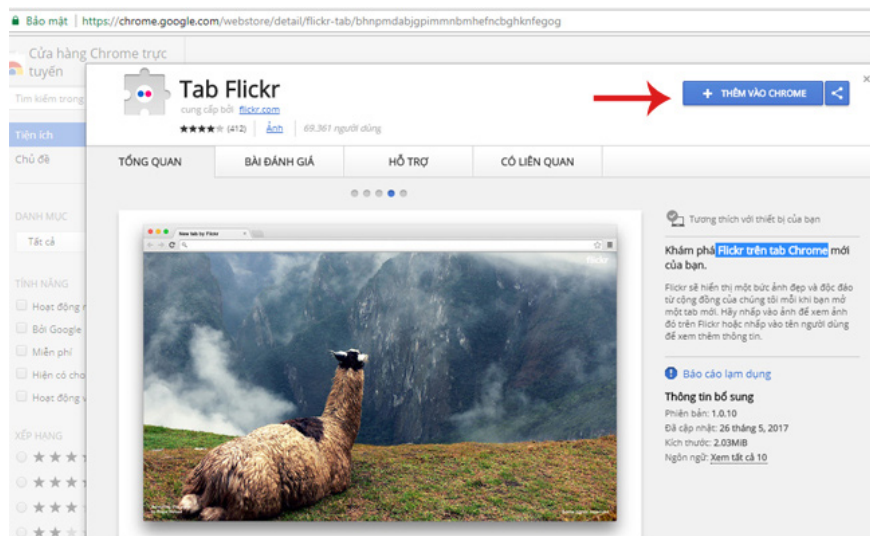

## How to install Flickr Chrome Extension:

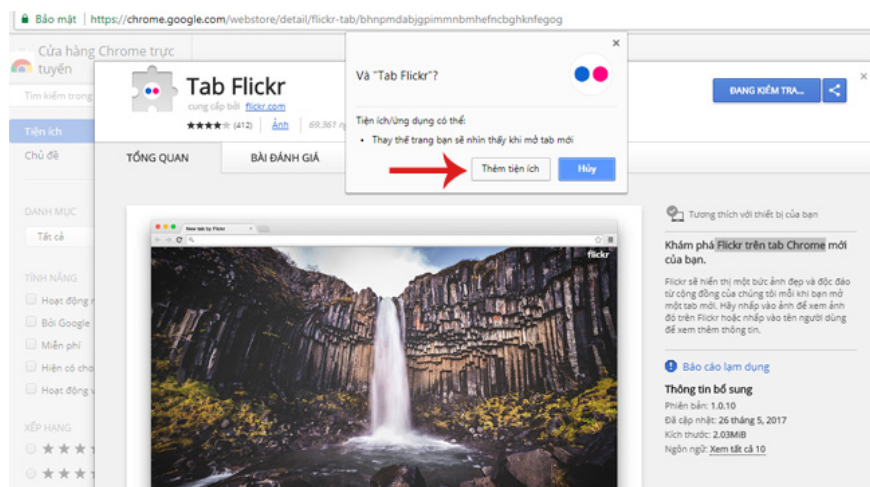

Step 1: Visit the Chrome Web Store under the link below.

<https://chrome.google.com/webstore/detail/flickr-tab/bhnpmdabjgpimmnbnmhefnbcghknfegog>

Step 2: On the interface, click on "Add to Chrome".

Step 3: In the new window that appears, select "Add gadget" to install Flickr Extension.

After installation is complete, the message will be added to Chrome. Try opening a new blank tab and feel it!
