

# Free online learning about AI and Machine learning on Google website

To make AI and Machine learning (ML) more accessible to everyone, Google will offer free online courses on its website called Learn with Google AI.

To make AI and Machine learning (ML) more accessible to everyone, Google will offer free online courses on its website called Learn with Google AI.

Google expects the Learn with Google AI website to become the portal for artificial intelligence and Machine learning-related resources for everyone. The site will support everyone at all levels from beginners to AI enthusiasts, researchers to be able to learn, develop, and improve ML skills and applications into practical problems.

In addition to providing information, knowledge, the website also offers free courses on ML called **Machine Learning Crash Course** which is designed based on internal courses at Google to help Google employees have a realistic view of the Basic rules of AI and ML.

With exercises, interactive images and many instructional videos, the course will help learners to understand the concept of ML. The course is about 15 hours long including interactive lessons, lectures from Google researchers and more than 40 exercises.

Anyone, whether or not you have experience can participate in this course, but Google encourages learners to possess a certain degree of basic algebra, programming experience and language knowledge. Python

programming language. In the future, Google will continue to offer a variety of popular courses on knowledge of AI and other ML.
