

# Freeplay in Among Us, how to play Freeplay on Among Us

Among Us provides a training mode - Freeplay for new players to learn about gameplay before being thrown into the 'swarm of wolves' in this mutual skeptical survival game.

Among Us is simple. There are friends, there are people who support them, they lose friends. However, although the **gameplay Among Us** is easy to get used to, it is difficult to master. Many players have had to retry the missions and fail several times.

To become a good impostor, you need to know how to use your unique ability to divide, conquer, steer the wrong way and set up a script to deceive wisely. If you want to be an astronaut for as long as possible in Among Us, you need to quickly and efficiently complete all assigned missions, and predict the next move of the impostor.

Therefore, **Among Us** provides a training mode - **Freeplay** for new players to learn gameplay before being thrown into the "swarm of wolves" in this survival game full of suspicion.

## What is Freeplay in Among Us?

Picture 1 of Freeplay in Among Us, how to play Freeplay on Among Us

Freeplay is a single player mode in Among Us, bringing players into a room full of astronauts - Crewmate controlled by AI. Here, players freely explore 3 maps with respective missions and the full capacity of an impostor - Imposter.

Freeplay is a great way to start playing Among Us for newbies to familiarize themselves with each task in the 3 maps in the game, avoiding the feeling of complacency to end up being a bad fake when not knowing how to do. how to make the most of a character's exclusive abilities - like jumping into Vent, Sabotage and of course killing people.

Among Us's Freeplay is also a place to practice missions for astronauts, helping them speed up and complete them effectively - mainly improving their ability to survive in emergencies.

Freeplay doesn't work like a real match. The AI-controlled "camouflage" helps the astronaut stay in place, not reporting on bodies or participating in missions.

You can freely sabotage important missions like O2, Reactor and let the timer push "cooldown" back to 0 or kill all the soulless astronauts. Among Us's Freeplay game will refresh everything without missing anything. What mechanism creates a continuous training session for you to hone your skills.
