

# Fridge organization tips in Fill the Fridge

Tips to organize the refrigerator in Fill the Fridge, Useful tips when playing Fill the Fridge help gamers arrange all items in the refrigerator neatly

If you are a lover of neatness and order, Fill The Fridge is the game for you. Fill The Fridge requires players to arrange items and food in the refrigerator neatly, so that nothing is left outside.

It sounds easy, but in reality, players can get confused with the piles of products in full containers that need to be put in a small refrigerator. From putting your first egg carton in place to stacking some oreos on top of each other, there's a lot to do in this game.

If you're having trouble with the mess in the fridge and don't know how to organize it properly, read on to learn some helpful tips to keep your fridge tidy in Fill the Fridge.

## Fridge organization tips in Fill the Fridge

**Check the meter**

Always pay attention to check the gauge on the left side of the screen. It will show how full the fridge is and how long it takes before it can go to the next level. There are a lot of perfect solutions for stacking, but as long as you get one star, you can move on to the next challenge.

**Take a look at the items you currently have**

Take a moment to familiarize yourself with the items in your basket. Look at the items in the fridge and think ahead about what you need to do. Fill the Fridge has no time limit, so people don't have to rush to get everything sorted right from the start.

**Think about the shapes of the item**

When you're ready to begin the sorting process, think about the shape of the items. Some are long and thin, some are tall, or items that can be stacked if space is available. So think about how you can make use of the space you have to put them all in the fridge.

**Undo when you make a mistake**

Undo will definitely be the operation used a lot in Fill the Fridge. If you accidentally put an item in a place that's hard to get out or move, tap the item, then tap a cart to start fixing the mistake.

**Use the money in the game sensibly**

Players can spend in-game currency to unlock new items. People will usually have a spending opportunity when starting a new level. These items don't really change the gameplay or provide any major benefit, so while it's worth collecting them, gamers don't need to watch the video to increase the cash.
