Fujitsu has just introduced two new laptops, including the Stylistic Q702 and LifeBook T902. Stylistic Q702 is a laptop with magnesium casing weighing only 850g and can attach an external keyboard dock to increase battery usage. Meanwhile, the LifeBook T920 is a laptop with a rotating screen.

Stylistic Q702 is equipped with an 11.6-inch LED screen with a resolution of 1,366 x 768 pixels. It uses Ivy Bridge Core i3 or i5 processor, 4G standard RAM. Users can choose to upgrade the hard drive up to 256GB. Fujitsu Stylistic Q702 is equipped with Intel HD 4000 Graphics, USB 3.0 connections, USB 2.0, HDMI and SD card slot. When adding a keyboard dock, users have an Ethernet, VGA plug and a 4-cell battery.

The LifeBook T902 uses a 13.3-inch screen with a resolution of 1,600 x 900 pixels with Gorilla Glass glass. This product is integrated with Ivy Bridge Core i5 or i7 processors with up to 16GB of RAM. It has a standard hard drive of 320GB but users can choose to replace the 256GB SSD. Laptop rotating screen of Fujitsu supports two USB 3.0 ports, USB 2.0, HDMI, VGA, Ethernet, SD card slot, 3G or 4G connection (depending on the market). In addition, users can choose to integrate a 1080p webcam for the device. The battery that comes with the LifeBook T902 can work continuously for 7 hours and 40 minutes.

Stylistic Q702 and LifeBook T902 are expected to be sold in the third quarter of this year. In particular, the model Q702 is priced at 1,099 USD and T920 is 1,899 USD. Both are preinstalled with Windows 7 operating system when shipped but can still upgrade to Windows 8.
