How to redeem code for rewards

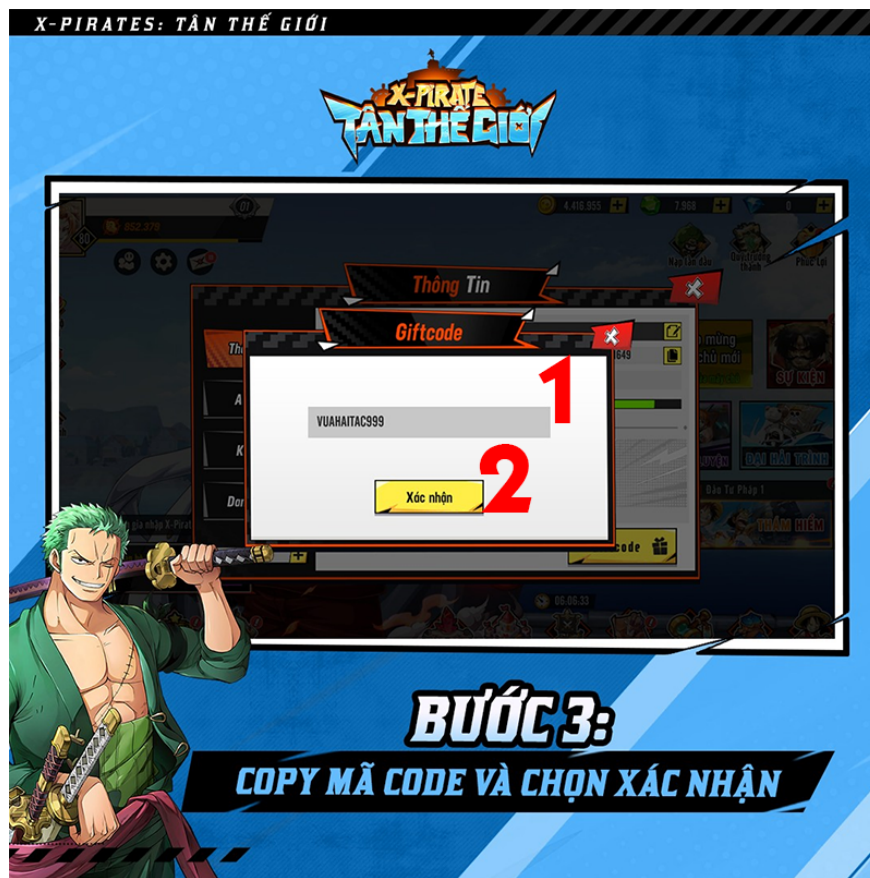

Step 1: Select your Avatar in the upper left corner of the screen.

Step 2: Select Giftcode

Step 3: Enter the code in the code table into the code content box (1) and select Confirm (2) to redeem the code for a reward. If the gift code you redeem is still valid, you will see a notification that the code has been successfully redeemed or the reward has been added to your inventory.

Please note that each code can only be redeemed once, and we also recommend that you redeem a series of codes before they expire.

Why can't the code be changed?

The reason why gift codes cannot be redeemed in mobile games is often due to the following reasons: **the gift code has expired or has been used, or when the player enters the wrong code, wrong characters, or wrong format (case-sensitive), chooses the wrong server or character, the network connection is unstable, the game system is under maintenance or has an error, the gift code only applies to certain areas, and the player does not meet the conditions to use the code (not yet at the right level or has not completed the newbie mission).**

Where to get more giftcode?

To receive more giftcodes for X Pirates New World, you should follow the game's official Facebook page or homepage, participate in in-game and community events, and visit reputable game news sites such as TipsMake.com.com. We not only update game codes but also have events to give players game codes through missions. Note that the codes are only valid for a short time, so you need to redeem a series of codes before they expire.
