

Funny test: Are you an extrovert or introvert?

Have you ever wondered if you are an introvert or an extrovert? Let's test this simple test!

1. "Who is the killer?" - Conan's thinking needs to be solved!
2. If you can find a difference in 10 seconds, you're really a genius!
3. "Hack brain" with 15 thought puzzles is not difficult but hard to imagine

Have you ever wondered if you are an introvert or an extrovert? According to statistics, the extrovert occupies the majority and their eyes are always on the outside world. The introvert is a smaller group. Many people think that introverts will be easier to **focus on** and therefore can solve this test without any difficulties.

Please answer the questions below, we will tell you whether you are an extrovert or an introvert!

1. Start with a simple question: Look for a croissant

Result

If you can easily find the above items, you are truly an introvert . You have unique observation skills and know how to focus to find the smallest details. You prefer to be alone rather than join in noisy encounters. In particular, you don't like expressing your feelings. [24 signs that you are introverted, not shy]

If you feel bored when you have to search for the above objects and lose patience, you are an extrovert . You are active, sensitive and emotional. It's hard for you to stay in one place. You like to communicate with people and know how to attract attention.

If you find it difficult but still complete the test, you are an Ambivert (the term refers to those who are both introverted and extroverted). This is a rare personality. You are a talented person, know how to adapt to different environments and easily chat with people around. [Are you an introvert and an extrovert?]

Does this test result match your expectations? Share it with friends so they can find out your personality!
