

# Galaxy A11 launched: 6.4-inch screen, 3 cameras, 5000mAh battery with fast charging

Add a cheap smartphone from Samsung of the A-series.

Recently Samsung has continued to launch a new smartphone in the low-cost segment called Galaxy A11, targeted at basic users.

Galaxy A11 is equipped with a 6.4 inch TFT screen, has HD + resolution and uses the "Mole" Infinity-O design. The "mole" position is where the 8MP f / 2.0 selfie camera is located.

In terms of performance, the device is equipped with an octa-core 1.8GHz chip of unknown code name (most likely Exynos or MediaTek) comes with 2 / 3GB RAM and 32GB storage memory, with card support. microSD memory expansion. The Galaxy A11 battery has a capacity of 4000mAh and supports fast charging of 15W

Galaxy A11 is equipped with a triple-camera setup on the back including a 13MP f / 1.8 wide-angle main sensor, a 5MP f / 2.2 sensor with super wide-angle lens and a 2MP f / 2.4 camera for depth measurement, without telephoto camera. The back of the device is also where the fingerprint sensor is located.

Galaxy A11 will be sold with 4 color options: black, blue, red and white. The price and distribution market of this smartphone has not been announced.
