

Galaxy M31 launched in Vietnam: 64MP Camera, 6GB RAM, 6000 mAh battery

Like other M-series and A-series upgrades, the Galaxy M31 has improved camera performance as well as an impressive battery life with a 6000mAh battery.

After nearly a month of launching in the international market, today (March 16), Samsung has officially introduced the Galaxy M31, the first M-series smartphone launched this year, is also The successor to the Galaxy M30s was launched earlier. In addition to possessing the typical battery capacity of the Galaxy M series, Galaxy M31 is also the first smartphone of this series to be equipped with a 64MP camera and macro lens for close-ups.

The design of the Galaxy M31 will not be much different from the previous version of Galaxy M30s. Users will still have an all-plastic design on the back and frame. The front of the machine will be a 6.4-inch Super AMOLED screen with Full HD + resolution, using the Infinity-U design. Despite being an AMOLED screen, the Galaxy M31 remains loyal to the fingerprint sensor on the back.

Galaxy M31 launched in Vietnam

The highlight of this smartphone is the cluster of 4 main cameras on the back, including a 64MP f / 1.8 camera, an 8MP f / 2.2 super wide-angle camera, a 5MP f / 2.4 macro camera and a 5MP depth-measuring camera. . This camera specs are quite similar to the more advanced Galaxy A71. It also has a 32MP selfie camera on the front.

In addition, the camera on the Galaxy M31 also has unique features such as Super Steady video recording mode, AR Emoji, Super Slow-mo 240fps (HD) video recording and UHD 4K video recording at 30fps to ensure

diversity of users' photography and video experiences.

In terms of performance, Galaxy M31 is equipped with Exynos 9611 chip comes with 6GB RAM and 128GB memory, with expandable memory card support. Inheriting the superior battery life of its predecessor, the Galaxy M31 battery has a super capacity of up to 6000mAh, supporting 15W fast charging.

Samsung Galaxy M31 with two unique colors: Blue Ocean and Infinity Black will be officially distributed on FPT Shop online from March 25, 2020 with the suggested retail price of VND 6,490,000. Especially, the first users who pre-order from 16 to 20 March 2020, with a limited number, will enjoy a discount of up to 700,000 VND.
