

# Galaxy Tab A9 is as compact as a mobile phone, as convenient as a convenient multi-tasking laptop

Samsung Tab A9 is receiving a lot of positive feedback since its launch. The product meets the expectations of technology enthusiasts for a device that integrates the compactness of a smartphone but is as effective in working as a laptop. With a mid-range price, Tab A9 possesses many outstanding advantages. Users can use many different functions, such as studying, working and entertainment. Join Hoang Ha Mobile to learn more about Samsung Tab devices in the article below.

## When is the Galaxy Samsung Tab A9 launched?

Samsung Tab A9 was launched in the technology market in October 2023, just one month after the Galaxy Tab A8 was introduced. Right from the moment it was sold, this product line quickly received many high reviews and positive feedback. Not only for its modern design, the device is also loved for its technology and strong configuration. The launch event of Tab A9 was not very loud, on the contrary, it only appeared quietly on major electronic exchanges and exploded in the market.

## How much does the Galaxy Samsung Tab A9 cost?

Currently, **Samsung** launches two versions in the Galaxy Tab A9 line: **Samsung Galaxy Tab A9 Wifi 4GB/64GB** and **Tab A9 Plus Wifi 4GB/64GB**. Compared to many other competitors on the market, the Tab 9 product is considered to have a reasonable price. At the same time, the product possesses many superior features, meeting the desires of technology users for a device that perfectly combines laptop and smartphone.

\* Samsung Galaxy Tab A9 Wifi 4GB/64GB: About 2,000,000 - 3,000,000 VND

\* Samsung Galaxy Tab A9 Plus Wifi 4GB/64GB: About 4,000,000 - 5,000,000 VND

## **Outstanding advantages of the Samsung Tab A9 series**

**Samsung Tab A9** possesses impressive specifications and configuration. The exterior design brings perfection, modernity and class. Wide, quality screen up to 8.7 inches. High resolution helps users improve viewing and operating experience. Helio G99 chip and memory capacity create favorable conditions for you to save data or operate smoothly.

### **The design is aimed at modernity and multiple color options**

**Tab A9 Plus** or Tab A9 Wifi series both have the same appearance. Samsung aims to be youthful and dynamic when producing. The body of the machine is cast from a solid metal body, creating sturdiness and durability. Perfect curves create more flexibility and softness.

The product has three different color versions so customers can choose according to their preferences. Including Graphite black, metallic silver and Navy blue. The device's size is moderate, the screen is 8.7 inches wide and rectangular in shape to increase the user's viewing experience. The **Tab A9 Plus** series has a screen of up to 11 inches.

### **Powerful configuration like a miniature laptop**

Possessing a 4GB RAM configuration and a powerful Helio G99 (6nm) chip, **Samsung Tab A9** brings you the smoothest operating experience. All activities from work, entertainment, gaming or studying are handled quickly with one touch. Memory capacity up to 64GB allows you to save all your large data or can be easily upgraded to 1TB. The Android 13 operating system creates the feeling that when operating there is not much difference like using a Smartphone.

### **Lively sound system**

**Samsung Tab A9 Plus** and A9 Wifi are manufactured with dual speaker systems with a capacity of up to 1W. Dolby Atmos technology creates smooth and impressive 3D sound quality. Every melody is reproduced realistically and lifelike. In particular, you will clearly experience this advantage when watching movies, listening to music and playing games. It is no longer a strip of sound transmitted from the receiver, it is the most realistic sound stream as if you were there.

### **Diverse modern and superior features**

Not only the A9 Wifi version, but **the Samsung Tab A9 Plus** is even more popular. The product is installed and programmed with a variety of different functions, serving almost all user requirements. Share quickly, with just one touch and the Internet helps you send information data to the recipient.

At the same time, you can use it on multiple devices. Just log in to your Samsung account, whether on Tab A9 or Smartphone or Laptop, you can access and operate this synchronized data.

## **Epilogue**

**Samsung Tab A9**, a product loved by many users because of its reasonable price and modern technology. Design the product as a perfect fashion accessory, increasing class, modernity and dynamism when used. Stable processor, powerful configuration helps you have the best, smooth and efficient experience. At Hoang Ha Mobile, we are committed to bringing you quality and reputable products.
