

Game raising 'pet cockroaches' crawling cluttered on the screen made many people not clumsy snail

Like all classic virtual pet games from decades ago, this pet cockroach game has all the care functions such as eating, sleeping, living, playing.

Cockroaches are one of the most hated animals on the planet, becoming an obsession for many. That's why when the Twitter account "FanKetchup" introduced a virtual pet game with the only protagonist selected as the cockroach, it made many people scared.

Like all classic virtual pet games from decades ago, this pet cockroach game has all the care functions such as eating, sleeping, living, playing.

Some main interfaces and functions in the game "pet cockroaches".

In addition, players can also collect items to makeup for cockroaches, create a new 'more lovely' appearance for them according to their preferences such as bows, hair ties, round eyes, sparkling glowing beards, brands. transparent application .

Currently, this pet cockroach game is still in the process of finishing. In the coming time, the game will be added with auto-waiting and hidden activities for "cockroaches". Owners do not need to look after, their pets can walk around and eat ready meals.

Cockroach pet game has a high consumption of configuration and computer resources. If the game is on, the player will not be able to do anything else on the computer.

Here are some introductory videos about a pet cockroach pet sprawling on the screen, please watch.

For more information about the game, you can visit Twitter @FanKetchup following the link below, maybe you will feel interested in becoming a professional cockroach trainer in the future.
